to aid in the review and practice of life science topics. Life Science covers topics such as classifying animals, plant and animal structures, life cycles, biomes, and energy transfer. The book includes realistic diagrams and engaging activities to support practice in all areas of life science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and Earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

The series Tools for Instructions and Reading Assessment is a companion piece to Dr. Jennifer Katz's book Teaching to Diversity. The series, which supports the three-block model of universal design for learning, offers two instructional guides, A Model Unit and Reading Assessment Program Guide for each grade from 1 to 12. The Reading Assessment Program Guide includes: 1. A guide that focuses on how to assess students' progress in reading comprehension and fluency/decoding 2. Accompanying blackline masters and grade-specific rubrics 3. Four levelled Reading Passages to use for assessment throughout the school year
