The Logitech Z313 speaker system is what is called a 2.1 system, meaning it has 2 small stereo speakers and 1 subwoofer. The speakers and subwoofer each have their own built-in amplifiers, with 25 watts total power, which accounts for their exciting, dynamic sound quality. Let's look at each of the Z 313's components separately.

The Demo Docs System of instruction replicates the classroom experience by providing more “I get it” moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: & Students understand (or “get it”) right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course.& On top of this, you can end up getting behind in the course as well, in order to keep everyone on track.& The Demo Docs system helps to recreate the “I get it” moments outside of class-keeping both you and the students on track.

1. Introduction 2. Conformational analysis of alicyclic rings 3. Ring synthesis 4. Conformation and reactivity 5. Polycyclic systems Index

They found it out in the atomic wasteland, a relic from before the war! But what is it: a tool to bring hope back to humanity, or a weapon to finish what the bombs started? Depends on who gets it: the Casino Warlords of Las Vegas or the man called Geiger! By the critically acclaimed team of GEOFF JOHNS, GARY FRANK and BRAD ANDERSON!

Long before A Game of Thrones became an international phenomenon, #1 New York Times bestselling author George R. R. Martin had taken his loyal readers across the cosmos. Now back in print after almost ten years, Tuf Voyaging is the story of quirky and endearing Haviland Tuf, an unlikely hero just trying to do right by the galaxy, one planet at a time. Haviland Tuf is an honest space-trader who likes cats. So how is it that, in competition with the worst villains the universe has to offer, he's become the proud owner of a seedship, the last remnant of Earth's legendary Ecological Engineering Corps? Never mind; just be thankful that the most powerful weapon in human space is in good hands—hands which now have the godlike ability to control the genetic material of thousands of outlandish creatures. Armed with this unique equipment, Tuf is set to tackle the problems that human settlers have created in colonizing far-flung worlds: hosts of hostile monsters, a population hooked on procreation, a dictator who unleashes plagues to get his own way . . . and in every case, the only thing that stands between the colonists and disaster is Tuf's ingenuity—and his reputation as a man of integrity in a universe of rogues. "A rich blend of adventure, humor, compassion and all the other things that make being human worthwhile."—Analog "A new facet of Martin's many-sided talent."—Asimov's

This is a Japanese translation of an accompanying guidebook for teachers who employ the piano method book for young beginners "Tales of a Musical Journey" Book 1 and Book 2 written by Irina Gorin. This guidebook offers a detailed description of the main ideas and approaches to the "Tales of a Musical Journey" as well as unique teaching strategies and tools, step-by-step instructions to teaching young beginners, and lesson plans for developing a young student's musical ability. (Japanese translation by Yuko Agata Farman)~~~~~

Advances in Alicyclic Chemistry, Volume 3 covers papers about the advances in alicyclic chemistry. The book presents a paper on the synthetic application of carbocyclic ring contraction reaction, with topics about rearrangements via carbonium ions, ring contractions via anionic intermediates or divalent carbon intermediates, photochemical ring contractions, and thermal rearrangements. The text also provides papers on the conformational analysis of cyclohexane and cyclohexene derivatives and on the review and analysis of modern theory about eliminations from cycloaliphatic derivatives. Chemists will find the book invaluable.

Each year, we spend hours shopping and getting dressed, but do we ever think about what we're wearing? What's the name of the style of your shirt? Who invented your favorite jeans cut? Who made your baby-doll nightie famous? There is a story behind every piece of clothing and with Fashion 101 you'll learn those stories and more: Where did the miniskirt come from? Why has the military had a stronger influence on fashion than Audrey Hepburn? How do denim makers work those perfect "whiskers" into your "worn-out" jeans? Filled with tons of intriguing factoids about designers and celebrities, and more than 300 illustrations, Fashion 101 offers the total scoop on underwear, outerwear, accessories, and everything in between. With this crash course, you'll learn not only how to put together smarter looks, but also how to become a fashion expert in the process.

Can a clever young inventor uncover a ruthless pirate's heart of gold? Thrilling sea adventure takes on a hint of steampunk in the second book by the author of the acclaimed Hour of the Bees. When her parents, the great marine scientists Dr. and Dr. Quail, are killed in a tragic accident, eleven-year-old Fidelia Quail is racked by grief -- and guilt. It was a submarine of Fidelia's invention that her parents were in when they died, and it was she who pressed them to stay out longer when the raging Undertow was looming. But Fidelia is forced out of her mourning when she's kidnapped by Merrick the Monstrous, a pirate whose list of treasons stretches longer than a ribbon eel. Her task? Use her marine know-how to retrieve his treasure, lost on the ocean floor. But as Fidelia and the pirates close in on the prize, with the navy hot on their heels, she realizes that Merrick doesn't expect to live long enough to enjoy his loot. Could something other than black-hearted greed be driving him? Will Fidelia be able to master the perils of the ocean without her parents -- and piece together the mystery of Merrick the Monstrous before it's too late?

Teach the stories of the Bible through hands-on learning! Children will love creating personalized versions of favorite Bible stories, special prayers, and songs of praise. These books provide children with interactive, personalized reading experiences by inviting them to create the books they are reading. Text is simple, easy-to-read, repetitive, and reader-friendly. Includes 10 eight-page reproducible poems, prayers, and stories; suggestions for completing the pages and making creative covers; easy activities that extend learning concepts and focus on God's love and Christian values; and a comprehensive list of related literature. A wonderful way to encourage a lifelong love of reading!
