This monograph is the first large-scale corpus analysis of French il y a clefts. While most research on clefts focusses on the English 'prototypical' it-cleft and its equivalents across languages, this study examines the lesser-known il y a clefts – of both presentational-eventive and specificational type – and provides an in-depth analysis of their syntactic, semantic and discourse-functional properties. In addition to an extensive literature review and a comparison with Italian c'è clefts and with French c'est clefts, the strength of the study lies in the critical approach it develops to the common definition of clefts. Several commonly used criteria for clefts are applied to the corpus data, revealing that these criteria often lead to ambiguous results. The reasons for this ambiguity are explored, thus leading to a better understanding of what constitutes a cleft. In this sense, the analysis will be of interest to specialists of Romance and non-Romance clefts alike.

When the bodies of two high-profile women are discovered, bearing signs of rape, and an innocent man is accused of the crime, Thomas Pitt's quest for the truth forces him to play a dangerous game of international politics and murder.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

PRESENTATION: HOW TO KNOW EVERYTHING ABOUT THE ROLEX GMT-MASTER The GMT-Master was created to meet the needs of Pan American Airways to supply its pilots with a wristwatch able to indicate the time back home and the time in their arrival destination simultaneously. It was necessary to give the pilots a "technical" wristwatch, which indicated simultaneously the two different times. It is from this point that the request arose from Pan Am to Rolex, to create a new watch for modern age aviators: a watch with two time zones. The name GMT-Master was chosen... Are you a watch collector and you need information about the Rolex GMT-Master? Are you a watch dealer and you want to know exactly what you are buying and selling? From Syria and Iraq to Ukraine, from AfPak to Libya, from Iran to Russia, and from the Persian Gulf to China, foreign correspondent Pepe Escobar, author of The Roving Eye column for Asia Times/Hong Kong, crisscrosses what the Pentagon calls the "arc of instability." As Escobar tells it in the introduction, "the columns selected for this volume follow the period 2009-2014 - the Obama years so far. A continuum with previous volumes published by Nimble Books does apply. Globalistan, from 2007, was an extended reportage/warped travel book across the Bush years, where I argued the world was being plunged into Liquid War - alluding to energy flows but also to the liquid modernity character of post-modern war. Red Zone Blues, also from 2007, was a vignette - an extended reportage centering on the Baghdad surge. And Obama does Globalistan, from 2009, examined how the hyperpower could embark on a "change we can believe in". The outcome, as these columns arguably reflect, is Empire of Chaos - where a plutocracy progressively projects its own internal disintegration upon the whole world.""You will find some key overlapping nations/themes/expressions/acronyms in these columns; Iran, Iraq, Syria, Afghanistan, Pakistan, Central Asia, China, Russia, Ukraine, Pipelineistan, BRICS, EU, NATO, GCC, the Global South, GWOT (the global war on terror), The New Great Game, Full Spectrum Dominance. You will also find a progressive drift towards not conventional war, but above all economic war - manifestations of Liquid War.""Incrementally, I have been arguing that Washington's number one objective now is to prevent a full economic integration of Eurasia that would leave the U.S. as a non-hegemon, or worse still, an outsider. Thus the three-pronged strategy of "pivoting to Asia" (containment of China); Ukraine (containment of Russia); and beefing up NATO (subjugation of Europe, and NATO as Global Robocop)."Book the ultimate trip to the Empire of Chaos, and see how the U.S. - and the West - are tackling the emergence of a multipolar world. Pepe Escobar is an independent geopolitical analyst. He writes for RT, Sputnik, TomDispatch, Strategic Culture Foundation, and is a frequent contributor to websites and radio and TV shows ranging from the US to East Asia. He is the former roving correspondent for Asia Times Online, where he also wrote the column The Roving Eye from 2000 to 2014. Born in Brazil, he's been a foreign correspondent since 1985, and has lived in London, Paris, Milan, Los Angeles, Washington, Bangkok and Hong Kong. He is the author of "Globalistan" (2007), "Red Zone Blues" (2007), "Obama does Globalistan" (2009) and "Empire of Chaos" (2014), all published by Nimble Books. PRESENTATION: ROLEX DAY-DATE, THE "PRESIDENT'S WATCH" The Rolex Day-Date is the first wristwatch which indicates the date and the day of the week. In 1956 Rolex presents one of its most successful and most popular watches ever: the Day-Date,. This model is one of the world's most famous Rolex watches; classic, beautiful, functional, useful and elegant. In 2008 a new chapter of this watch, the Day-Date II (ø 41 mm) and in 2015 the new Day-Date 40. Known as "President's Watch", this Rolex Day-Date has characterized and influenced the history of horology with developments and innovations during the years.With high definition unreleased images, technical details, dials variants, history and updated price of every model, this book analyses every reference from 1956 until today. TOPICS In this book the authors examine calibers, dials, cases, bracelets and many more components of every model. You'll find all dials with their variants of color (Stella dial) and material(lapis lazuli, root wood, meteorite, etc). Furthermore: the first Rolex Day-Date, 1800 series, "pie-pan" dials, 18000 series, personalized dials, special series, vintage advertisements, box, papers, Oysterquartz Day-Date, 18200 and 18300 series,Day-Date II, Day-Date 40 and much more. We can read from an official Rolex document: « THE BIRTH OF THE "DATEJUST" AND THE "DAY-DATE" Not satisfied with having realized a selfwinding waterproof watch, we decided to dedicate ourselves to studying the calendar watch. This is how the "Datejust", which clearly indicates the date on the dial in a small aperture with a Cyclops lens which enlarges it so as tomake it easier to read, was born. The next stage was the launch of the "Day-Date", a perfected model which also indicates, with letters, the days of the week. The day and the date automatically change every evening at midnight. » These are the words of Roger Federer, a living tennis legend, about his Day-Date II: "The reason I like my Day-Date so much is because it is a legendary watch, elegant but with a certain spirit, with a touch ofmodernity added to its stylish black dial".
