Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters. The emergence of giant media corporations has created a new era in mass communications. The world of media giants with a focus on the bottom line makes awareness of business and financial issues critical for everyone in the industry. This timely new edition of a popular and successful textbook introduces basic business concepts, terminology, history, and management theories in the context of contemporary events. It includes up-to-date information on technology and addresses the major problem facing media companies today: How can the news regain profitability in the digital age? Focusing on newspaper, television, and radio companies, Herrick fills his book with real-life examples, interviews with media managers, and case studies. In a time when all the rules are changing because of digital technology, conglomeration, and shifting consumer habits, this text is a vital tool for students and working journalists.
