Beginning with a look at the SL model's heritage, this book describes the full development and production history of a modern classic. Covering available models in all the major markets, year-by-year, and including limited editions, the data is supported by contemporary illustrations, sourced from the factory, plus in-depth appendices.

The 924 Carrera was a homologation model built to qualify the 924 model to race in Group 4. One of the great supercars of the 1980s, the 924 Carrera was considered by many to have better handling characteristics than Porsche's flagship 911. The book features interviews with many of those involved with the car at the time together with race stories, statistics, and a unique exposé of component failures during racing.

Although not the fastest or the most powerful Ferrari, the beautiful lines of the Dino have inspired generations of enthusiasts. This book covers the full story of the Dino, from Pininfarina concept car through to the final production model, illustrated throughout with contemporary material. The book features THE definitive record of the little V6 Ferrari and its Fiat sibling 'Dino', named after Enzo's son. It contains full year-by-year coverage of production models with the American and European markets covered in great detail. There are over 250 contemporary photos, mainly in color, along with contemporary advertising and brochures.

The authors spent seventeen days at the Morgan factory in Pickersleigh Road, Malvern Link recording step-by-step – from customer's specification sheet to finished car – how individual craftsmen handbuild a Morgan. Follow this amazing journey through the factory, from craftsman to craftsman, by word and picture.

Researched in incredible detail, this book explores the story of the timeless VW bus, from early origins through to the present day. This entirely new edition includes details of many of the different camper conversions, and examines the social history and the T2's evolution. Including full specifications, production figures and buying advice, this is a must for any VW enthusiast.

The concise history of the Bugatti Type 57, 57S, 64 & 101. The magnificent Type 57 was the final flowering of the genius of Ettore and Jean Bugatti, and the last truly new model from Molsheim, France. Packed with over 300 images - mostly contemporary - this book is recognised as THE standard reference on the 57 and its close relatives.

The W113 isn't just a visual treat; its combination of superb original design, peerless engineering and build quality has ensured that many of these cars can still be seen in regular use today, with reliability and practicality adding to the desirability of the series. Covering the SL's ever-changing specification, its competition record, and its presence in many of the world's major markets is a huge task, but it's all presented here in definitive detail, along with stunning contemporary photography, in a volume that will readily grace any reference library shelf or connoisseur's coffee table.

The overhead camshaft single provided the DNA for Ducati motorcycles, but, with little accurate documentation and information available until now, they can be difficult to restore and authenticate. This is the first book to provide an authoritative description of the complete range of Ducati OHC singles.

Here is an introduction to the whole cult of the dune buggy, from its earliest beginnings as a crude off-road vehicle in the 1920s, to the explosion of glassfibre-bodied and VW-based fun cars that became the cult transport of teenagers everywhere in the 1960s and 1970s. With histories, production details, dates and identification tips for over 70 US and UK buggies, this book will help identify the many marques that have been produced over the years. Using period photographs and archive material, combined with amazing contemporary photography, the book is a visual feast, and also contains sections on buggies and celebrities for those that want to spot pop stars, TV hosts and racing drivers posing with period vehicles.
