This is thirty-fifth edition of Martindale, which provides reliable, and evaluated information on drugs and medicines used throughout the world. It contains encyclopaedic facts about drugs and medicines, with: 5,500 drug monographs; 128,000 preparations; 40,700 reference citations; 10,900 manufacturers. There are synopses of disease treatments which enables identification of medicines, the local equivalent and the manufacturer. It also Includes herbals, diagnostic agents, radiopharmaceuticals, pharmaceutical excipients, toxins, and poisons as well as drugs and medicines. Based on published information and extensively referenced.

This is the standard reference for prescribing and dispensing drugs. In addition to the core information there are notes on the different drug groups to help in the choice of appropriate treatment. The BNF is updated in March and September of each year and compiled with the advice of clinical experts under the authority of a Joint Formulary Committee.
