Warriors Of
Stillness Etiology

Divided into four parts, this book describes the developmental stages of the internal martial artist. The first requirement lies in the constant cultivation and maintenance of proper posture and breathing habits, both in the stillness of

sitting and standing
and in the movement
of the body. The next
stage develops "jin,"
or "fajin," a unique
power characteristic
of internal martial arts
that is examined
through the
fundamental,
physiological,
anatomical, and
mechanical bases
and parameters. Also

Access PDF

Masters Of

important is the "yi," which refers to the mental faculty tasked with controlling our movements and actions in the world, and "shen," the peak or transcendent experience of awareness. This is the final volume of the Warriors of Stillness trilogy.

integrates mind and body to produce fajin, a powerful and potentially lethal force. Yiquan also relies on skills of awareness and stillness to counter and control this deadly force. This is volume two of the Warriors of Stillness trilogy.
