As part of the Teacher's Toy Box, Elizabeth Hlavaty provides a collection of Internet resources pertaining to the study and teaching of mathematics. These resources include lesson plans, thematic units, games, and other curriculum enrichment materials. Although there are materials for all grade levels, most of the materials are intended for use with elementary classes.

IMPORTANT: Please send a print copy of this workbook to PRCVI (attn: Library) in exchange for a large print copy of the workbook which the student can keep and write in. The print copy will not be returned. DISCLAIMER: PRCVI will try to obtain publisher permission for this workbook. If permission is not granted, the print copy of the workbook will be returned. Publishers may delay in responding to requests, so please plan accordingly. Introduction -- Rational numbers -- Scale factors and similarity -- Powers and exponents -- Polynomials -- Linear relations -- Solving linear equations -- Banking and budgeting -- Data analysis in society -- Answers.

This educational resource has been developed by many writers and consultants to bring the very best of pre-calculus to you.

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.
