These simple math secrets and tricks will forever change how you look at the world of numbers. Secrets of Mental Math will have you thinking like a math genius in no time. Get ready to amaze your friends—and yourself—with incredible calculations you never thought you could master, as renowned “mathemagician” Arthur Benjamin shares his techniques for lightning-quick calculations and amazing number tricks. This book will teach you to do math in your head faster than you ever thought possible, dramatically improve your memory for numbers, and—maybe for the first time—make mathematics fun. Yes, even you can learn to do seemingly complex equations in your head; all you need to learn are a few tricks. You’ll be able to quickly multiply and divide triple digits, compute with fractions, and determine squares, cubes, and roots without blinking an eye. No matter what your age or current math ability, Secrets of Mental Math will allow you to perform fantastic feats of the mind effortlessly. This is the math they never taught you in school.

Discusses the best methods of learning, describing how rereading and rote repetition are counterproductive and how such techniques as self-testing, spaced retrieval, and finding additional layers of information in new material can enhance learning.

Model Answers provides you with the working and the explanations that will help you achieve your best result in Edexcel GCSE Mathematics (9-1). The page numbers exactly match those in the question book. This makes looking up the information you want quick and easy. The questions are freely available on the website and the Model Answers can also be bought as a download . Please visit www.bland.in

In Fibonacci's Field, Lonely and Chalk Rabbit meet, snuggle together and then spend a year trying to cope with their ever-increasing brood and the seasonal changes that bring a new challenge each month. Presented in calendar format with one pop-up illustration and other special features.

Told with humor and heart, The Boy at the Back of the Class offers a child’s perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn’t always make sense. There used to be an empty chair at the back of Mrs. Khan’s classroom, but on the third Tuesday of the school year a new kid fills it: nine-year-old Ahmet, a Syrian refugee. The whole class is curious about this new boy—he doesn’t seem to smile, and he doesn’t talk much. But after learning that Ahmet fled a Very Real War and was separated from his family along the way, a determined group of his classmates bands together to concoct the Greatest Idea in the World—a magnificent plan to reunite Ahmet with his loved ones. This accessible, kid-friendly story about the refugee crisis highlights the community-changing potential of standing as an ally and reminds readers that everyone deserves a place to call home. “This moving and timely debut novel tells an enlightening, empowering, and ultimately hopeful story about how compassion and a willingness to speak out can change the world.” --School Library Journal, Starred Review Overall Winner of the 2019 UK Waterstones Children’s Book Prize Winner of the 2019 UK Blue Peter Book Award A CLIP Carnegie Medal Children’s Book Award Nominee

Algebra Part 1 is mathematics that are learned typically in elementary school as basic math. This can vary from multiple different math products, but allows the math to stay simple for those new to the math field. Algebra Part 1 can include addition, subtraction, multiplication, division, and possibly even more. Math is important to everyone in this world. Algebra Part 1 will benefit everyone as they head into the real world. Every job will require their employees to know basic math no matter what the type of job is. Math is used in every job and kids must learn it.

Unicorn Coloring Book For Kids Age 4-8100 completely unique unicorn coloring pages for kids ages 4-8!Unicorns are so much fun to color because they lead such interesting, magical lives! They meet princesses, dragons and mermaids. They visit castles and enchanted woodlands, fly through stars and rainbow skies and even wind up in the Land of Sweets! Share the fun and magic of unicorns with a special child! This coloring book is a great non-screen activity to stimulate a child's creativity and imagination. It makes a perfect gift!About this unicorn coloring book: - Contains 100 completely unique coloring pages. There are NO duplicate images in this book.- The pages are single-sided to prevent bleed-through, and so that pages can be removed and displayed without losing an image on the back.- We have carefully designed each page to be entertaining and suitable for children in the 4 to 8 year-old age range. We have avoided overly-intricate designs as well as overly-simplistic ones. We believe children of this age love coloring fun scenes that fire up their imaginations, not a book full of simple shapes.- The pages are a nice, large 8.5x11 size
