Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

"8th ed. update has expanded theme: Personal management : a career focus" -- Memorandum.

The magazine that helps career moms balance their personal and professional lives.

Whether readers are already in the workplace or about to embark on a career, this leading text and reference will help them learn how to take better charge of their personal life and professional development. It uncovers the essentials of management as they apply within the contemporary work environment. Particular attention is paid to cultural diversity, the global economy, ethical behavior and social responsibility, and the use of technology.

An introduction to leadership draws on a program developed for an elementary school to show how to apply the principles of "The 7 Habits of Highly Effective People" to help everyone, including young children, identify and use their individual talents.
