Glencoe is the only publisher to use real-world accounting software and companies to teach accounting!

College Accounting continues to offer its trademark short learning segments followed by self-review questions and answers. This book has been thoroughly revised and given a new visual design. The book also includes more real-world examples than ever, high-interest problems and activities, in-text help, classroom-tested features, and support for a variety of software packages. The new edition continues to be the most current and thorough text available, and provides solid coverage of accounting concepts and principles.

The book that has made accounting accessible to tens of thousands of managers--in just 36 hours of self-paced study--is back in a new edition that guides readers over the altered business terrain of the '90s. Features an array of learning enhancements, including a study plan, self-tests, a 100-question final exam, and more. 12 illustrations.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Quickly get up-to-speed in all basic accounting principles and procedures and apply that knowledge to real-world financial decisions and requests The McGraw-Hill 36-Hour Accounting Course has been the gold standard for anyone looking for a fast, no-nonsense primer in all the fundamentals of financial, managerial, and tax accounting concepts. Now thoroughly revised and updated, the fourth edition features new coverage of the technological developments in the field, the recent sweeping tax reforms, and the latest Financial Accounting Standards Board pronouncements. The McGraw-Hill 36-Hour Accounting Course offers such up-to-date coverage as: Complete analysis of the current trends in computer hardware and accounting software Coverage of current tax issues, such as the revision of tax rate structure, new deductions and credits for higher education costs, and taxation of Social Security benefits New test problems throughout to help you gauge your progress, as well as a final exam that can earn you a Certificate of Achievement Complete with a doable study plan, The McGraw-Hill 36-Hour Accounting Course is your fast track to easily mastering the essentials of accounting in the shortest time possible.

Sharpen your skills and prepare for the CPA Exam with a wealth of essential facts in a fast-and-easy Q&A format!
