Oh, I am sure that I would have still enjoyed it (D ' Lacey is a great writer and has a knack for disturbing detail)- but would I have read it as a vegetarian doctrine of some sort and let that deter me from fully appreciating it?

{Book Review} Meat: Joseph D'Lacey | Together Let's ...

Joseph D ' Lacey is best known for his shocking eco-horror novel MEAT. The book has been widely translated and prompted Stephen King to say " Joseph D ' Lacey rocks! ". He is also the author of the This Is Horror chapbook, Roadkill. This Is Horror sat down with Joseph to talk about the rerelease of cult classic, MEAT.

Interview: Joseph D ' Lacey on the rerelease of MEAT – This ...

" Meat, " by Joseph D ' Lacey, is a fairy tale. A not-so-modernistic-as-it-might-seem fairy tale. And one of the grimmest sort. It ' s masterful. Compelling. Heart-rending (if not flesh-rending). It ' s a must-read by any horror aficionado. In short order, I ' ll be taking on the rest of D ' Lacey ' s catalogue. I suggest others do the same.

Abyrne is a decaying town, trapped by an advancing wilderness. Its people depend on meat for survival. Meat is sanctified and precious, eaten with devout solemnity by everyone. But a handful of people suspect Abyrne is evil, rotten to its religious heart.

Abyrne is a decaying town, trapped by an advancing wilderness. Its people depend on meat for survival. Meat is sanctified and precious, eaten with devout solemnity by everyone. But a handful of people suspect Abyrne is evil, rotten to its religious heart. They are prepared to sacrifice everything for the truth: What goes on in the meat processing plant? Where does the meat come from? Shocking secrets are revealed and meat will never be the same again!

A landfill site in the middle of England is like any other landfill: an oozing, filthy dump situated perilously close to a local town. One man, a loner, makes regular visits there and the link between him and the landfill creates the most monstrous outcome: the landfill comes to life. Out of the waste of human society comes something living - and its enemy is humanity...

It is the Black Dawn, a time of environmental apocalypse, the earth wracked and dying. It is the Bright Day, a time long generations hence, when a peace has descended across the world. In each era, a child shall be chosen. Their task is to find a dark messiah known only as the Crowman. But is he our saviour – or the final incarnation of evil? File Under: Fantasy [The Crowman | Joined Through Time | The Last Keeper | The Journey Begins]

Reclusive outdoorsman, Jimmy Kerrigan, finds himself battling a vampiric plague which threatens to destroy Hobson's Valley, the isolated mountain community he calls home. When his family, friends and neighbours fall prey to the 'Fugue', Kerrigan is the only one who can save them and prevent the disease spreading beyond the remote town's boundaries. Kerrigan is uniquely equipped to deal with the outbreak. He carries a variant strain of Fugue enabling him to overcome and heal its victims. However, the nature of the illness ensures neither he nor those he hunts down are aware they're infected. After feeding on humans, the diseased forget their behaviour. Even Kerrigan, having confronted or neutralised a Fugue, is unable to recall his actions as guardian of Hobson's Valley. The illness and its effects have, like tetanus, survived in the earth around the mountain for countless generations. The lineage of Fugue Hunters has always been able to reverse an outbreak but not this time; someone wants the disease to spread and, in combination with a mutation of the virus, Kerrigan realises he may not be strong enough to contain it. Kerrigan is challenged beyond his limits when an innocent family of outsiders hikes straight into a wilderness crawling with Fugues - a wilderness he is responsible for. Can he really save them and protect the town? Can he defeat the creature who has caused the Fugue to mutate? And, most crucially, when he learns the horrifying truth about his own infection, will he even have the strength to try?

Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the " Transition. " Now, eating human meat— " special meat " —is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he ' s given a gift: a live specimen of the finest quality. Though he ' s aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved.

A riveting dystopian novel that examines how humans mistreat animals, and each other: " A powerful piece of writing, and a disturbing call to conscience " (J.M. Coetzee). It is more than 100 years in the future and the horrors of factory farming, combined with the widespread abuse of antibiotics, have led to mass extinctions. The majority of all mammals, birds, and fish that humans have eaten for millennia no longer exist. Those not fully capable are deemed undeserving of an equal share of scarce medical resources and are ultimately classified as less than human. As paranoia about our food supplies spreads, a forceful new logic takes hold; in the blink of a millennial eye the disenfranchised have become our food. Don LePan ' s " well-plotted " and " formally audacious " novel shows us a world at once eerily foreign and disturbingly familiar (Booklist). It follows the dramatic events that unfold within a family after they take in an abandoned mongrel boy. In the sharp-edged poignancy of the ethical questions it poses, in the striking narrative techniques it employs, and above all, in the remarkable power of the story it tells, Animals proves itself a transformative work of fiction.

It is the Black Dawn, a time of environmental apocalypse, the earth wracked and dying. It is the Bright Day, a time long generations hence, when a peace has descended across the world. The search for the shadowy figure known only as the Crowman continues, as the Green Men prepare to rise up against the forces of the Ward. The world has been condemned. Only Gordon Black and The Crowman can redeem it.

Will Lightbody is a man with a stomach ailment whose only sin is loving his wife, Eleanor, too much. Eleanor is a health nut of the first stripe, and when in 1907 she journeys to Dr. John Harvey Kellogg's infamous Battle Creek Spa to live out the vegetarian ethos, poor Will goes too. So begins T. Coraghessan Boyle's wickedly comic look at turn-of-the-century fanatics in search of the magic pill to prolong their lives--or the profit to be had from manufacturing it. Brimming with a Dickensian cast of characters and laced with wildly wonderful plot twists, Jane Smiley in the New York Times Book Review called The Road to Wellville "A marvel, enjoyable from beginning to end."

The cult thriller novel is back in this all new edition which features the original text as it was meant to be published! Dubbed one of "The Most Intense Horror Novels" ever written by many horror review sites, The Summer I Died is the first book in the Roger Huntington saga and soon to be a major motion picture. When Roger Huntington comes home from college for the summer and is met by his best friend, Tooth, he knows they're going to have a good time. A summer full of beer, comic books, movies, laughs, and maybe even girls. The sun is high and the sky is clear as Roger and Tooth set out to shoot beer cans at Bobcat Mountain. Just two friends catching up on lost time, two friends thinking about their futures . . . two friends suddenly thrust into the middle of a nightmare. Forced to fight for their lives against a sadistic killer with an arsenal of razor sharp blades and a hungry dog by his side. If they are to survive, they must decide: are heroes born, or are they made? Or is something more powerful happening to them? And more importantly, how do you survive when all roads lead to death? "A tense, bloody ride!" - Brian Keene, author of The Rising "If you want to freak yourself out on your next camping trip, you can't really do any better than The Summer I Died." - BloodyDisgusting.com
