Mercedes-Benz Vito (1996-2010) used car review. 2nd Mar 2011. Share; Facebook; Twitter; LinkedIn; Email; By Andy Enright. Introduction. There's a certain commodity quality about panel vans that Mercedes is keen to dissuade us from. By and large it has succeeded, which is why, despite its premium

pricing, the Vito van consistently outsells cheaper rivals. Buying a used van can be a minefield as ...

Mercedes-Benz passenger car experience transfers over very well to the Vito's cab, which has a high class air and appeal. The centre console, instruments and steering wheel would all look very at home in one of Merc's luxury saloons, yet they also sit very well in the Vito for more commercial use.

The "engrossing, thoroughly researched look at women who are in romantic relationships with incarcerated men"—fully updated with twenty-first-century cases (Publishers Weekly). In 1991, Sheila Isenberg's classic study *Women Who Love Men Who Kill* asked the provocative question, "Why do women fall in love with convicted murderers?" Now, Isenberg returns to the same question in the age of smart phones, social media, mass shootings, and modern prison dating. The result is a compelling psychological study of prison passion in the new millennium. Isenberg conducts extensive interviews with women who seek relationships with convicted killers, as well as conversations with psychiatrists, social workers, and prison officials. She shows that many of these women know exactly what they are getting into—yet they are willing to sacrifice everything for the sake of a love without hope, promise, or consummation. This edition of *Women Who Love Men Who Kill* includes gripping new case studies and an absorbing look at how the digital age is revolutionizing this phenomenon. Meet the young women writing "fan fiction" featuring America's most sadistic murderers; the killer serving consecutive life sentences for strangling his wife and smothering his toddler daughters—and the women who visit him in prison; the high-powered journalist who fell in love and risked it all for "Pharma Bro" Martin Shkreli; and many other women absorbed in online and real-life dalliances with their killer men.

Corruption is a threat to democracy and economic development in many societies. It arises in the ways people pursue, use and exchange wealth and power, and in the strength or weakness of the state, political and social institutions that sustain and restrain those processes. Differences in these factors, Michael Johnston argues, give rise to four major syndromes of corruption: Influence Markets, Elite Cartels, Oligarchs and Clans, and Official Moguls. In this 2005 book, Johnston uses statistical measures to identify societies in each group, and case studies to show that the expected syndromes do arise. Countries studied include the United States, Japan and Germany (Influence Markets); Italy, Korea and Botswana (Elite Cartels); Russia, the Philippines and Mexico (Oligarchs and Clans); and China, Kenya, and Indonesia (Official Moguls). A concluding chapter explores reform, emphasising the ways familiar measures should be applied - or withheld, lest they do harm - with an emphasis upon the value of 'deep democratisation'.
