Download Microsoft Word 2007 manual. The new interface for Office 2007 is very different from previous versions. The first thing that you might notice is that some of the menus are no longer there. Most importantly, the FILE MENU is missing. This is the most disconcerting issue for new users, but fear not! All of the features that you usually found in the FILE MENU are now behind the ubiquitous OFFICE BUTTON (circled below).

This book is a no-nonsense guide for Office users who have a SharePoint environment deployed. Written by the person responsible for large SharePoint deployment – his role is helping desktop users integrate and use SP features seamlessly – our author takes users through working with their familiar Office applications and leveraging SharePoint on the backend. This is different than using SharePoint; it's about putting Office to work and integrating it with SharePoint in such a way that even more benefits and synergies are realized. It's about using Office and SharePoint as a platform, and there is no other book on the market combining the two products.

Within this comprehensive, visual reference, succinctly captioned, step-by-step screen shots show you how to accomplish more than 300 Office tasks. You'll learn how to format text and apply styles in Word, work with Excel formulas and functions, add animation to PowerPoint slides, create an Access database, manage contacts with Outlook, collaborate with OneNote and Live Meeting, and create publications with Publisher. A bonus CD-ROM includes demo software, add-ins, sample files, and additional chapters.
