of American culture.

Advancing multiple, even conflicted visions of postcolonial America, this important volume interrogates postcolonial theory and traces the emergence and significance of postcolonial practices and precepts in the United States.

Contributors discuss how the unique status of

Read Book

Minolta Dimage

the United States as the colony that became a superpower has shaped its sense of itself. They assess the global networks of inequality that have displaced neocolonial systems of conquest, exploitation, and occupation. They also examine how individuals and groups use music, the Internet, and other media to reconfigure,

Minolta Dimage

centuries, led to new socio-political structures and institutions emerging in the Near East. The primary processes that enabled this emergence were large-scale and long-distance movements, or population migrations. These patterns of social developments are analysed under different aspects: settlement patterns, urban structure,
