Minus 148 is one of the few true classics in the literature of mountaineering. It is no simple tale of heroism and valour, like Annapurna, but

rather a vexed, uneven story of doubt, failure, whim, courage, tragedy. The expedition was unbalanced, with the strong members far superior to the others. Perhaps the strongest of all was killed in an absurd accident within the first hours. The leader himself seemed to

The intense rivalries within the expedition team, and the dangers of the route, led to an outcome darkened by tragedy, an outcome that continues to fuel one of the most tormenting debates in mountaineering history. Blending adventure with a
