~~Want to know the difference between 'cause' and 'reason'? Not sure when to write 'according' and when 'accordingly'? Confused about the correct usage of the gerund? This book is a compilation of the "Polishing Up English" newsletters I have been sending for over six years to employees whose native language is not English. In these newsletters, I cover common language issues for business people. Based on personal experience, I came to understand that most of the mistakes non-native speakers of English make are shared, and are encountered across the board, rather than being unique and strictly personal. Some mistakes appear more often than others. Examples of most frequent mistakes are analyzed and included. These mistakes also occur in contexts common to most areas of human interaction, such as small talk, in-office conversation, business correspondence, IT, and similar communication. This book features simpler chapters for beginners, Pronunciation and Punctuation. Followed by chapters for intermediate learners of English, such as Words and Phrases. Advanced users of English can use the Style and Quiz chapters to test their understanding of the language. This makes the book ideal for any non-native speaker of English, who proactively uses English on a daily basis for communicating with various English speakers both in written form and orally. Using this book will give you a unique opportunity to cut the list of possible mistakes you may make to a minimum.~~

~~Did you know that the plural of "sheep" is "sheep" (not "sheeps")? Some mistakes in English are incredibly common, even among advanced learners: irregular plurals, using "have done" instead of "did", incorrect prepositions ("arrive to" instead of "arrive at"), placing commas where they shouldn't be and omitting them when they are necessary... This book will teach you how to avoid some of the most common grammar and vocabulary mistakes English learners make. If you are interested in the most common pronunciation mistakes, the author of the book has written a separate book on the topic entitled Improve your English pronunciation and learn over 500 commonly mispronounced words.~~

~~This book analyzes the errors most commonly made in spoken and written English and presents them in a systematic, down-to-earth manner. It does not dictate grammar to the reader; rather, it presents the guidelines for English usage currently being observed by the most competent and careful speakers and writers. The most troublesome words and phrases—as well as grammatical terms—are listed alphabetically within 18 subject areas to enable the reader to check quickly on questions of usage. In each case, illustrative examples are given, and the guiding principle is stated for the reader to follow in avoiding the mistake and others similar to it. An extensive index for additional ease of reference helps make this book a handy tool for the modern reader who realizes that mere knowledge is no longer sufficient—that one must be able to express his knowledge clearly, forcefully, and correctly.~~

~~Jim Griffith and Bill Easom draw from decades of personal experience in planting new churches and consulting with supervisors and planters in new church starts. They have condensed their vast experiences down to ten points that account for the great majority of failures among church planters. For each point, the authors provide examples of the particular mistake and ways to avoid it. They speak in special sections to coaches and supervisors, showing them how to work with church planters to avoid the mistakes. The ten mistakes point in most cases to plans made on the basis of past experiences or unrealistic models that do not fit either the particular church planter or the mission field where the church is planned. the church planter must take the initiative to do God's work as directed by the Holy Spirit, not copy a religious superstar's methods or approach the works as defined by outside sources.~~
