This edited volume on machine learning and big data analytics

Page 38/73

File Type PDF Mr 801a Mipro

(Proceedings of ICMLBDA 2021) is intended to be used as a reference book for researchers and practitioners in the disciplines of computer science, electronics and telecommunication, information science, and electrical engineering. Machine learning and Big data analytics represent a key

File Type PDF

Mr 801a Mipro

ingredients in the industrial applications for new products and services. Big data analytics applies machine learning for predictions by examining large and varied data sets—i.e., big data—to uncover hidden patterns, unknown correlations, market trends, customer preferences, and other

File Type PDF

Mr 801a Mipro

useful information that can help organizations make more informed business decisions.

The book focuses to foster new and original research ideas and results in three broad areas: computing, analytics, and networking with its prospective applications in the various

File Type PDF

Mr 801a Mipro

interdisciplinary
domains of engineering.
This is an exciting and
emerging
interdisciplinary area in
which a wide range of
theory and
methodologies are being
investigated and
developed to tackle
complex and
challenging real world
problems. It also
provides insights into

File Type PDF

Mr 801a Mipro

the International
Conference on
Computing Analytics
and Networking
(ICCAN 2017) which is
a premier international
open forum for
scientists, researchers
and technocrats in
academia as well as in
industries from different
parts of the world to
present, interact, and
exchange the state of art

File Type PDF

Mr 801a Mipro

of concepts, prototypes, innovative research ideas in several diversified fields. The book includes invited keynote papers and paper presentations from both academia and industry to initiate and ignite our young minds in the meadow of momentous research and thereby enrich their existing knowledge. The

File Type PDF

Mr 801a Mipro

book aims at postgraduate students and researchers working in the discipline of Computer Science & Engineering. It will be also useful for the researchers working in the domain of electronics as it contains some hardware technologies and forthcoming communication

File Type PDF

Mr 801a Mipro

technologies.

This volume provides challenges and Opportunities with updated, in-depth material on the application of Big data to complex systems in order to find solutions for the challenges and problems facing big data sets applications. Much data today is not

File Type PDF

Mr 801a Mipro

natively in structured format; for example, tweets and blogs are weakly structured pieces of text, while images and video are structured for storage and display, but not for semantic content and search.

Therefore transforming such content into a structured format for later analysis is a major challenge. Data

File Type PDF

Mr 801a Mipro

analysis, organization, retrieval, and modeling are other foundational challenges treated in this book. The material of this book will be useful for researchers and practitioners in the field of big data as well as advanced undergraduate and graduate students. Each of the 17 chapters in the book opens with a chapter abstract and key

File Type PDF

Mr 801a Mipro

terms list. The chapters are organized along the lines of problem description, related works, and analysis of the results and comparisons are provided whenever feasible.

This book provides a collection of comprehensive research articles on data analytics

File Type PDF

Mr 801a Mipro

and applications of wearable devices in healthcare. This Special Issue presents 28 research studies from 137 authors representing 37 institutions from 19 countries. To facilitate the understanding of the research articles, we have organized the book to show various aspects covered in this field, such as eHealth,

File Type PDF

Mr 801a Mipro

technology-integrated research, prediction models, rehabilitation studies, prototype systems, community health studies, ergonomics design systems, technology acceptance model evaluation studies, telemonitoring systems, warning systems, application of sensors in sports studies, clinical

File Type PDF

Mr 801a Mipro

systems, feasibility studies, geographical location based systems, tracking systems, observational studies, risk assessment studies, human activity recognition systems, impact measurement systems, and a systematic review. We would like to take this opportunity to invite high quality research

File Type PDF

Mr 801a Mipro

articles for our next
Special Issue entitled
□Digital Health and
Smart Sensors for Better
Management of Cancer
and Chronic Diseases□
as a part of Sensors
journal.

The book describes the
science gateway
building technology
developed in the SCI-
BUS European project

File Type PDF

Mr 801a Mipro

and its adoption and customization method, by which user communities, such as biologists, chemists, and astrophysicists, can build customized, domain-specific science gateways. Many aspects of the core technology are explained in detail, including its workflow capability, job submission mechanism

File Type PDF

Mr 801a Mipro

to various grids and clouds, and its data transfer mechanisms among several distributed infrastructures. The book will be useful for scientific researchers and IT professionals engaged in the development of science gateways.

File Type PDF

Mr 801a Mipro

Fundamentals provides researchers and industry professionals with complete guidance on the synthesis, analysis, design, monitoring, and control of metals, materials, and metallurgical processes and phenomena. Along with the fundamentals, it covers modeling of diverse phenomena in processes involving

File Type PDF

Mr 801a Mipro

iron, steel, non-ferrous metals, and composites. It also goes on to examine second phase particles in metals, novel sensors for hostile-environment materials processes, online sampling and analysis techniques, and models for real-time process control and quality monitoring systems.

File Type PDF

Mr 801a Mipro

This volume presents the revised and peer reviewed contributions of the "ERP Future 2012" conference held in Salzburg/Austria on November 11th - 12th, 2012. The conference is a platform for research in ERP systems and closely related topics like business processes, business intelligence, and

File Type PDF

Mr 801a Mipro

enterprise information systems in general. To master the challenges of ERP comprehensively, the ERP Future 2012 Research conference accepted contributions both with a business focus as well as with an IT focus to consider enterprise resource planning from various viewpoints. This combination of business

File Type PDF

Mr 801a Mipro

and IT aspects is a unique characteristic of the conference and of this volume that resulted in valuable contributions with high practical impact.

Due to the complexity, and heterogeneity of the smart grid and the high volume of information to be processed, artificial intelligence

File Type PDF

Mr 801a Mipro

techniques and computational intelligence appear to be some of the enabling technologies for its future development and success. The theme of the book is "Making pathway for the grid of future" with the emphasis on trends in Smart Grid, renewable interconnection issues, p
lanning-operation-

File Type PDF

Mr 801a Mipro

control and reliability of
grid, real time
monitoring and
protection, market,
distributed generation
and power distribution
issues, power
electronics applications,
computer-IT and signal
processing applications,
power apparatus, power
engineering education
and industry-institute
collaboration. The

File Type PDF

Mr 801a Mipro

primary objective of the book is to review the current state of the art of the most relevant artificial intelligence techniques applied to the different issues that arise in the smart grid development.

Artificial neural networks can mimic the biological information-processing mechanism

File Type PDF

Mr 801a Mipro

in - a very limited sense. Fuzzy logic provides a basis for representing uncertain and imprecise knowledge and forms a basis for human reasoning. Neural networks display genuine promise in solving problems, but a definitive theoretical basis does not yet exist for their design. Fusion of Neural Networks,

File Type PDF

Mr 801a Mipro

Fuzzy Systems and Genetic Algorithms integrates neural net, fuzzy system, and evolutionary computing in system design that enables its readers to handle complexity - offsetting the demerits of one paradigm by the merits of another. This book presents specific projects where fusion techniques have been

File Type PDF

Mr 801a Mipro

applied. The chapters start with the design of a new fuzzy-neural controller. Remaining chapters discuss the application of expert systems, neural networks, fuzzy control, and evolutionary computing techniques in modern engineering systems. These specific applications include:

direct frequency

File Type PDF

Mr 801a Mipro

converters electro-
hydraulic systems motor
control toaster control
speech recognition
vehicle routing fault
diagnosis Asynchronous
Transfer Mode (ATM)
communications
networks telephones for
hard-of-hearing people
control of gas turbine
aero-engines

systems design Fusion

File Type PDF Mr 801a Mipro

of Neural Networks,
Fuzzy Systems and
Genetic Algorithms
covers the spectrum of
applications -
comprehensively
demonstrating the
advantages of fusion
techniques in industrial
applications.

The role of translation
in the formation of
modern Japanese

File Type PDF

Mr 801a Mipro

identities has become one of the most exciting new fields of inquiry in Japanese studies. This book marks the first attempt to establish the contours of this new field, bringing together seminal works of Japanese scholarship and criticism with cutting-edge English-language scholarship. Collectively, the

File Type PDF

Mr 801a Mipro

contributors to this book address two critical questions: 1) how does the conception of modern Japan as a culture of translation affect our understanding of Japanese modernity and its relation to the East/West divide? and 2) how does the example of a distinctly East Asian tradition of translation affect our

File Type PDF

Mr 801a Mipro

understanding of translation itself? The chapter engage a wide array of disciplines, perspectives, and topics from politics to culture, the written language to visual culture, scientific discourse to children's literature and the Japanese conception of a national literature. Translation in Modern Japan will be of

File Type PDF

Mr 801a Mipro

huge interest to a diverse readership in both Japanese studies and translation studies as well as students and scholars of the theory and practice of Japanese literary translation, traditional and modern Japanese history and culture, and Japanese women's studies.
