Comparative study of municipal corporations of Madras, Hyderabad, and Bangalore.

High population growth, informal settlements, and organizational and financial mismanagement represent major challenges for the water supply in many cities in developing countries. This book contributes to solving those problems by identifying systematic shortcomings and proposing solutions to improve the financial conditions in two

# Read PDF Municipal Corporation Of Hyderabad

representative cities: Hyderabad and Varanasi. Serious improvements are necessary for the further development of the water supply and sanitation networks in these areas. Pricing Urban Water offers a theoretical introduction to economics of the water sector, including the theory of water pricing and tariff systems, combined with detailed analyses of the water supply and sanitation infrastructure as well as of the municipal suppliers of Hyderabad and Varanasi. Introducing a method for estimating future water production costs in both cities serves as the basis for a tariff revision, which is put forward as one solution to improve the poor financial conditions both suppliers are in. Besides the revision of the tariff systems, some considerations on how to supply and charge urban poor and on the inclusion of private borewells in the tariffs are part of the discussion. Changes in both the organizational structure of the service providers and in the current delivery and use of the services are presented as further solutions to the problems in this sector.

Study of the Municipal Corporation of Hyderabad.

Solid Waste Management (SWM) is a matter of great concern in the urban areas of developing countries. The municipal authorities who are responsible for managing municipal solid waste are unable to discharge their obligations effectively because they lack the in-

## Read PDF Municipal Corporation Of Hyderabad

house capacity to handle the complexities of the process. It is heartening to see that the World Bank has prepared this book covering all important aspects of municipal SWM in great depth. The book covers very lucidly the present scenario of SWM in urban areas, the system deficiencies that exist, and the steps that need to be taken to correct SWM practices in compliance with Municipal Solid Waste (Management and Handling) Rules 2000 ratified by the Government of India. The book shares examples of best practices adopted in various parts of the country and abroad, and very appropriately covers the institutional, financial, social, and legal aspects of solid waste management, which are essential for sustainability of the system. It provides a good insight on how to involve the community, nongovernmental organizations, and the private sector to help improve the efficiency and cost effectiveness of the service, and shows how contracting mechanisms can be used to involve the private sector in SWM services. This book will be a very useful tool for city managers and various stakeholders who deal with municipal solid waste management in the design and execution of appropriate and cost-effective systems.

India ' s cities are in the midst of an unprecedented urban expansion. While India is acknowledged as a rising power, poised to emerge into the front rank of global economies, the pace and scale of its urbanisation calls for more effective metropolitan management if that growth is not to be constrained by gathering urban crisis. This book addresses some key issues of governance and management for India ' s principal urban areas of Mumbai, Kolkata and Hyderabad. As three of the greatest Indian cities, they have evolved in recent decades into large metropolitan regions with complex, overlapping and often haphazard governance

## Read PDF Municipal Corporation Of Hyderabad

arrangements. All three cities exemplify the challenges of urbanisation and serve here as case studies to explore the five dimensions of urban governance in terms of devolution, planning, structures of delivery, urban leadership and civic participation. London, with its recent establishment of a directly elected Mayor, provides a reference point for this analysis, and signifies the extent to which urban leadership has moved to the top of the urban governance agenda. In arguing the case for reform of metropolitan governance, the book demonstrates that it would be too simplistic to imagine that London ' s institutional structure can be readily transposed on to the very different political and cultural fabric of India ' s urban life. Confronting India ' s urban crisis with a comparative analysis that identifies the limits of policy transfer, the book will be particularly valuable to students and scholars of Politics, Governance, and Urban studies.
