Mary Cranson had done the walk many times before, but now had simply vanished from Dartmoor near the prominent landmark called Haytor. Her boyfriend raises the alarm when she doesn't meet him as arranged in the local pub. For the investigating officer, Detective Inspector Richard King, the intriguing aspect is that many of her friends knew she would be on the moor as she had told them of her intentions the previous evening. King and his small team of detectives begin the arduous task of interviewing the people who would have known her whereabouts that fateful afternoon. Could she have been consumed by one of the notorious bogs on the moor or is the reason for her disappearance something more sinister? The detectives are also dealing with thefts of vehicles and machinery, mainly from farms across Dartmoor. These have continued undetected for over six months and questions are being asked in the local media about the lack of progress in catching the thieves. The profile of these cases increases significantly when a theft goes disastrously wrong. King is also made aware of a barn fire close to Haytor, but is this connected to the other cases? Pressure is mounting on the wily detective from the chief constable who wants progress on both the thefts and the missing woman.

The tourism industry, of which the hospitality industry is the core element, is one of the largest and the fastest growing industries world-wide. According to World Tourism Organisation forecasts, the industry will continue to grow and employ more people in the twenty-first century. In parallel with the growth of

the tourism and hospitality industry world-wide, consumer expectations and demands for quality are rising while consumer tastes are varying on the one hand, and competition among the firms, both nationally and internationally, is intensifying on the other. In this business environment of heightened consumer expectations, distinct market segments that demand unique products and services, and stiff competition, tourism and hospitality organisations are looking for ways to excel in service quality, customer satisfaction, competition and performance. This book takes the view that employees are one of the most, if not the most, important resources or assets for tourism and hospitality organisations in their endeavour to provide excellent service, meet and exceed consumer expectations, achieve competitive advantage and exceptional organisational performance. The purpose of this book is to emphasise the critical role of employees for tourism and hospitality organisations and to examine the ways and means of managing their attitudes and behaviours for the mutual benefit of both parties: tourism and hospitality organisations and their employees.

Think a welcoming smile and an outgoing personality are all one needs to succeed in hospitality and tourism? Guess again. Hard work, preparation, and training are necessary as well. What isn't required is a four-year college degree. Learning and hands-on training for hospitality and tourism careers can start in high school, and continue after graduation through vocational education and certification. This book prepares readers for work as chefs, hotel desk clerks, adventure tour guides, and so much more.

The Routledge Handbook of Tourism Experience Management and Marketing offers a comprehensive and thorough inquiry into both customary and emergent issues of tourism experience and co-creation. It also integrates a selection of illustrative global case studies to effectively present its chapter contents. Creating a memorable and enduring experience is therefore a prerequisite for the all tourism business organizations irrespective of the nature of their products or services. This handbook focuses on conceptualizing, designing, staging, managing and marketing paradigms of tourism experiences from both supply and demand perspectives. It sheds substantial light on the contemporary theories, practices and future developments in the arena of experiential tourism management and marketing. Encompassing the latest thinking and research themes, this will be an essential reference for upper-level students, researchers, academics and industry practitioners of hospitality as well as those of tourism, gastronomy, management, marketing, consumer behavior, cultural studies, development studies and international business, encouraging dialogue across disciplinary boundaries.
