This tip works for most NEC Projectors: First, ensure that the projector is powered "on." Second, hold down the "cancel" or "exit" button on the projector for about 15 to 20 seconds. Second, hold down the "cancel" or "exit" button on the projector for about 15 to 20 seconds.

Projector w/Remote, cables, & User's Manual for loan.

This fully-illustrated guide offers a quick and easy visual reference for installing electrical systems. Whether you're installing a new system or repairing an old one, you'll appreciate the simple explanations written by a code expert, and the detailed, intricately-drawn and labeled diagrams. A real time-saver when it comes to deciphering the current NEC.

A question-and-answer study guide for students and apprentices preparing to take the journeyman's or master's electrician's exam based on the 2005 National Electrical Code.

This uniquely effective guide helps readers master the 2020 National Electrical Code, using highly detailed, technically accurate illustrations to make even the most complex aspects of the code easier to understand and apply. An experienced author, educator and master electrician, Charles Miller translates the often vague, complicated language of the 2020 NEC into clear, simple instructions accompanied by helpful visuals. Topics are organized logically and presented in a convenient, modular format for easy reference, beginning with fundamental concepts and progressing to requirements for various dwellings, from one-family homes to multi-family housing, commercial locations and special occupancies. In addition, a convenient, modular format makes it easy to reference relevant information anytime. The Eighth Edition of this trusted resource provides detailed information on key updates and additions to the 2020 NEC, so readers can confidently master current industry standards and best practices. Comprehensive coverage, an innovative learning approach perfect for today's visual learners and accurate, up-to-date information make this valuable resource indispensable for beginning and experienced electricians, engineers and other electrical professionals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A professional introduction to the end-to-end process of digital filmmaking! The EDCF Guide to Digital Cinema Production sheds light on the ongoing and confusing transition from analog to digital technology in film production. In addition to a complete analysis of technical concerns, this text deals with a number of issues where European and Hollywood priorities differ. It adds fuel to the discussion on "Photo-Chemical Fundamentalism" and the future of traditional film-based cinematography. With special emphasis on new HD production techniques for the big cinema screen, this guide is the one and only resource available from a European perspective. The EDCF Guide to Digital Cinema Production provides film professionals and decisions-makers in European cinema with an excellent basis for discussions on how to handle the transition from analog to digital technology. Look no further for: \* Several production case studies, among them Ingmar Bergman's last film "Saraband" (2003) and Lars von Trier's "Dogville" (2003). \* Surveys of HD Systems & Cameras and "The 37 MFAQ on HD Production." \* Expert reports on Audio Recording for HD and the Digital Intermediate Process. \* Detailed European initiatives in Digital Cinema. \* An up-to-date survey of the problematic standards situation for Digital Cinema. \* A comprehensive look at archiving - the "Achilles Heel" of digital production. \* The pros and cons of producing feature films digitally - a unique and professional view of "the agony and ecstasy." Editor-in-Chief Lasse Svanberg is a founding member of EDCF. He was DoP on 14 feature films 1966-81, founded TM (Technology & Man) Magazine at the Swedish Film Institute in 1968 and was its Chief Editor until 1998 He was elected Fellow of BKSTS 1979, Fellow of SMPTE 1995 and granted Professor's title by the Swedish Government 2002. He is the author of six books on the history and possible future of film, video and television. The European Digital Digital Cinema Forum (EDCF) was constituted in June 2001 as joint Swedish-British-French effort to establish a European forum for discussions, information exchange and industrial activities in the field of Digital Cinema. This project was initiated because digital production, digital distribution and digital exhibition of film is the most radical technical change facing the film industry since sound film was introduced.

The CCDO is a systematic and comprehensive arrangement of occupational descriptions reflecting the work performed by the Canadian population and represents a summary of the significant activities of a number of similar jobs that may be found in different establishments. The classification structure consists of major, minor, unit group and individual occupations. There are over 7,700 individual and non-groupable occupations described as well.
