Politics Book Review: On China by Henry Kissinger On China Henry Kissinger

In On China, Kissinger describes what he calls the "triangulation" between China, the US, and the USSR. Kissinger tells us that Chinese leaders, starting with Mao Zedong, skillfully played the Americans and Russians off against each other, bolstering China's relatively weak position and enabling it to behave as a third Superpower. This account is the most significant element in On China, though Kissinger gives us more.

But it misunderstood Richard M. Nixon and Henry Kissinger ' s fundamental approach. Instead of seeking confrontation with China, Nixon and Kissinger sought to play the “ China Card ” by deploying it...

In 1971 Henry Kissinger took the historic step of reopening relations between China and the West, and since then has been more intimately connected with the country at the highest level than any other western figure. This book distils his unique experience, examining China's history from the classical era to the present day, describing the essence of its millennia-old approach to diplomacy, strategy and negotiation, and reflecting on these attitudes for our own uncertain future.

File Type PDF On China Henry Kissinger

For more than twenty years after the Communist Revolution in 1949, China and most of the western world had no diplomats in each others' capitals and no direct way to communicate. Then, in July 1971, Henry Kissinger arrived secretly in Beijing on a mission which quickly led to the reopening of relations between China and the West and changed the course of post-war history. For the past forty years, Kissinger has maintained close relations with successive generations of Chinese leaders, and has probably been more intimately connected with China at the highest level than any other western figure. This book distils his unique experience and long study of the 'Middle Kingdom', examining China's history from the classical era to the present day, and explaining why it has taken the extraordinary course that it has. The book concentrates on the decades since 1949, presenting brilliantly drawn portraits of Mao Zedong, Zhou Enlai, Deng Xiaoping and other Chinese leaders, and reproducing verbatim Kissinger's conversations with each of them. But Kissinger's eye rarely leaves the long continuum of Chinese history: he describes the essence of China's approach to diplomacy, strategy and negotiation, and the remarkable ways in which Communist-era statesmen have drawn on methods honed over millennia. At the end of the book, Kissinger reflects on these attitudes for our own era of economic interdependence and an uncertain future. *On China* is written with great authority, complete accessibility and with many wider reflections on statecraft and diplomacy distilled from years of experience. At a moment when the rest of the world is thinking about China more than ever before, this timely book offers insights that no other can.

In July 1971, US National Security Advisor, Henry Kissinger, made a secret visit to China to meet top Chinese leaders. This inaugurated a new phase not just in US-China relations but in contemporary history. That visit and the subsequent US-China relationship, including the US decision to invest in

File Type PDF On China Henry Kissinger

China's economic rise and admit it into the WTO, combined to firm up the foundations of China's rise as a world power. For more than four decades, the leadership of the two countries had a secretive pact, which worked well to each other's benefit. The US helped power China's economic growth in the hope that Beijing would turn a new political leaf and adopt Western practices (e.g. democracy). China grew economically and militarily, used its financial prowess to spread its influence across continents, as four generations of Chinese leaders built their nation at the expense of the US. Half a century after Kissinger's historic visit, the US and China are today engaged in a trade war bordering on a new Cold War. Washington is not openly talking about 'de-coupling' from China, which has begun to challenge its global dominance, but it might very well be. China has already established itself as a dominant power across Eurasia. More worryingly, China is militarily and economically threatening its neighbours, including Japan, Korea, Vietnam, Taiwan, Australia, Philippines, Indonesia and India. This collection of critical essays examines the impact, consequences and legacy of Kissinger's first, door-opening visit to China and how it has shaped world order.

“ Dazzling and instructive . . . [a] magisterial new book. ” —Walter Isaacson, Time "An astute analysis that illuminates many of today's critical international issues." —Kirkus Reviews Henry Kissinger offers in *World Order* a deep meditation on the roots of international harmony and global disorder. Drawing on his experience as one of the foremost statesmen of the modern era—advising presidents, traveling the world, observing and shaping the central foreign policy events of recent decades—Kissinger now reveals his analysis of the ultimate challenge for the twenty-first century: how to build a shared international order in a world of divergent historical perspectives, violent conflict, proliferating technology, and ideological extremism. There has never been a true “ world order, ” Kissinger observes. For most of

File Type PDF On China Henry Kissinger

history, civilizations defined their own concepts of order. Each considered itself the center of the world and envisioned its distinct principles as universally relevant. China conceived of a global cultural hierarchy with the emperor at its pinnacle. In Europe, Rome imagined itself surrounded by barbarians; when Rome fragmented, European peoples refined a concept of an equilibrium of sovereign states and sought to export it across the world. Islam, in its early centuries, considered itself the world's sole legitimate political unit, destined to expand indefinitely until the world was brought into harmony by religious principles. The United States was born of a conviction about the universal applicability of democracy—a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as national security advisor and secretary of state, *World Order* guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier Gorbachev in Reykjavík. He offers compelling insights into the future of U.S. – China relations and the evolution of the European Union, and he examines lessons of the conflicts in Iraq and Afghanistan. Taking readers from his analysis of nuclear negotiations with Iran through the West's response to the Arab Spring and tensions with Russia over Ukraine, *World Order* anchors Kissinger's historical analysis in the decisive events of our time. Provocative and articulate, blending historical insight with geopolitical prognostication, *World Order* is a unique work that could come only from a lifelong policy maker and diplomat. Kissinger is also the author of *On China*.

File Type PDF On China Henry Kissinger

In a series of riveting interviews, America's senior statesman discusses the challenges of directing foreign policy during times of great global tension. As National Security Advisor to Richard Nixon, Henry Kissinger transformed America's approach to diplomacy with China, the USSR, Vietnam, and the Middle East, laying the foundations for geopolitics as we know them today. Nearly fifty years later, escalating tensions between the US, China, and Russia are threatening a swift return to the same diplomatic game of tug-of-war that Kissinger played so masterfully. Kissinger on Kissinger is a series of faithfully transcribed interviews conducted by the elder statesman's longtime associate, Winston Lord, which captures Kissinger's thoughts on the specific challenges that he faced during his tenure as NSA, his general advice on leadership and international relations, and stunning portraits of the larger-than-life world leaders of the era. The result is a frank and well-informed overview of US foreign policy in the first half of the 70s—essential reading for anyone hoping to understand tomorrow's global challenges.

[Henry Kissinger and American Power] effectively separates the man from the myths." —The Christian Science Monitor | Best books of August 2020 The definitive biography of Henry Kissinger—at least for those who neither revere nor revile him Over the past six decades, Henry Kissinger has been America's most consistently praised—and reviled—public figure. He was hailed as a “miracle worker” for his peacemaking in the Middle East, pursuit of *dé tentione* with the Soviet Union, negotiation of an end to the Vietnam War, and secret plan to open the United States to China. He was assailed from the left and from the right for his indifference to human rights, complicity in the pointless sacrifice of

File Type PDF On China Henry Kissinger

American and Vietnamese lives, and reliance on deception and intrigue. Was he a brilliant master strategist— “ the 20th century ’ s greatest 19th century statesman ” —or a cold-blooded monster who eroded America ’ s moral standing for the sake of self-promotion? In this masterfully researched biography, the renowned diplomatic historian Thomas Schwartz offers an authoritative, and fair-minded, answer to this question. While other biographers have engaged in hagiography or demonology, Schwartz takes a measured view of his subject. He recognizes Kissinger ’ s successes and acknowledges that Kissinger thought seriously and with great insight about the foreign policy issues of his time, while also recognizing his failures, his penchant for backbiting, and his reliance on ingratiating and fawning praise of the president as a source of power. Throughout, Schwartz stresses Kissinger ’ s artful invention of himself as a celebrity diplomat and his domination of the medium of television news. He also notes Kissinger ’ s sensitivity to domestic and partisan politics, complicating—and undermining—the image of the far-seeing statesman who stands above the squabbles of popular strife. Rounded and textured, and rich with new insights into key dilemmas of American power, *Henry Kissinger and American Power* stands as an essential guide to a man whose legacy is as complex as the last sixty years of US history itself.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Chinese have a paradox of their origins. They believe that they are eternal, and that their civilization has no beginning. They believe that they have always been living in the same stage of advancement as in the present day. #2 Chinese history is filled with periods of civil war, interregnum, and chaos. But each period of disunity was viewed as an aberration, and each new dynasty reached back to the previous dynasty ’ s principles of governance in order to reestablish continuity. #3 China was never required to

File Type PDF On China Henry Kissinger

deal with other countries or civilizations of comparable size and sophistication. The Chinese Empire never attempted to conquer any foreign countries, and when the Mongol Dynasty collapsed, the expeditions to Japan were never again attempted. #4 The Chinese were able to maintain their splendid isolation, and grew accustomed to the notion that China was unique. Chinese elites grew accustomed to the idea that China was a great civilization, and not just another country.

The former Secretary of State under Richard Nixon argues that a coherent foreign policy is essential and lays out his own plan for getting the nation's international affairs in order.

'Kissinger's absorbing book tackles head-on some of the toughest questions of our time . . . Its pages sparkle with insight' Simon Schama in the NEW YORKER Spanning more than three centuries, from Cardinal Richelieu to the fragility of the 'New World Order', DIPLOMACY is the now-classic history of international relations by the former Secretary of State and winner of the Nobel Peace Prize. Kissinger's intimate portraits of world leaders, many from personal experience, provide the reader with a unique insight into what really goes on -- and why -- behind the closed doors of the corridors of power. 'Budding diplomats and politicians should read it as avidly as their predecessors read Machiavelli' Douglas Hurd in the DAILY TELEGRAPH 'If you want to pay someone a compliment, give them Henry Kissinger's DIPLOMACY ... It is certainly one of the best, and most enjoyable [books] on international relations past and present ... DIPLOMACY should be read for the sheer historical sweep, the characterisations, the story-telling, the ability to look at large parts of the world as a whole' Malcolm Rutherford in the FINANCIAL TIMES
