The Mustang GT/CS Recognition Guide & Owner's Manual by Paul M. Newitt and licensed by Ford is a hardbound, full color 224 page detailed story of the limited-edition 1968 Ford Mustang--which was created just for California. The story of how the California-Crazy car culture in the 1960s prompted the marketing of Mustang's first factory-produced special edition is described in incredible detail - from the inspiration of Shelby's "Little Red" coupe to the development by Ford Design to become 4,118 GT/California Specials. The story continues with the marketing plan by J.Walter Thompson and California's Ford Dealer's Association to bring this Mustang to market in the spring of 1968. A detailed account of the GT/CS variant, the "High Country Special," sold in the Denver sales district is also included. Detailed production statistics, rare factory photos, authentication, options, accessories, specific part descriptions and comprehensive Concours restoration information are covered, along with the complete stories of the Shelby prototype coupes "Little Red," and the EXP-500 "Green Hornet." A separate chapter is devoted to the development, prototypes and production of the 2007-09 and 2011 GT/CS, and a complete GT/CS Owner Registry of 1,300 cars with photos rounds out the volume. Each book is beautifully bound, signed and numbered. A very special, limited edition for Mustang collectors!

The 2005 Mustang, to be released by Ford forty years after the original Mustang, will be both a departure and a return to tradition, as Ford steps away from the aging Fox chassis for its flagship car, yet brings back styling cues from the most popular Mustangs of the past. Ford found inspiration for the new Mustang from its 1967 Fastback model. The 2005 retro-look pony car will include a 4.6-liter, V-8 engine with 300 horsepower — the highest horsepower of any previously built Mustang. This book traces the new Mustang ' s evolution from the drawing board to the production line to the street. A photographic celebration of the new car, this book delivers the inside story behind the rejuvenation of one of the most storied cars in automotive history.

Come along on Mustang's wild ride to automotive success. In the early 1960s, Lee Iacocca - then director of the Ford division at Ford Motor Company - convinced Henry Ford II to produce a sporty four-seat car aimed at the emerging youth market. That car, essentially a reconfigured and re-skinned Falcon economy car, became the Ford Mustang, and it changed the automotive world like no other car before or since. In Ford Mustang: America's Original Pony Car, acclaimed Mustang writer Donald Farr celebrates this unbroken lineage of muscle. He chronicles the car's phenomenal first-year sales, the new pony car category it pioneered, and subsequent models that include the Mustang GT, Shelby GT350, Shelby GT500, Super Cobra Jet, Boss 302, and Boss 429 - all part of a line of American performance cars that continues to this day. Created in cooperation with Ford Motor Company and featuring some 400 photos from its historic and media archives, Ford Mustang is a must on the bookshelf of any muscle car or Ford aficionado.

With sales of over 6 million books worldwide, the Animal Ark franchise is a hit with young readers. It's exciting enough that Lisa and Paul Cooke, two American stunt riders, have moved their team of mustangs to Yorkshire, England, and asked that Mandy and James help out at their ranch. When Mandy's favorite band, the Cowboys, show up there to film a rock video, the two friends know they're about to have the spring break of their lives! But the day before the shoot, Cougar, the lead mustang, develops a life-threatening illness - worrying his owners and infuriating the video producer. Will Mandy be able to help the sick horse back to health, despite the odds against him?
