A text/CD-ROM introduction to operations management, organized around 10 critical decisions in practice. Part I introduces concepts, and Part II describes designing operations. Part III describes managing operations in terms of performance, and Part IV outlines analytical techniques for decision making. Pedagogical features include margin notes, worked examples, critical thinking exercises, and database application problems. Also includes 46 case studies, global company profiles, boxed readings from newspapers, and video cases. The CD-ROM contains slides of main points, quizzes, and simulation software. Annotation copyrighted by Book News, Inc., Portland, OR.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. --
