This aid for revision and continuing professional development contains multiple choice questions and full explanatory answers to assist learning. It covers all subspecialities, including refractive surgery, and is formatted to prepare the reader for the final MRCOphth/MRCS exam.

This book contains 300 multiple choice questions (MCQs), in the format of a single best answer (SBA) from four options, for undergraduate medical students preparing for the Duke Elder prize exam run by the Royal College of Ophthalmologists (RCOphth) annually. The content is organised in line with topics drawn from the candidate information pack provided by the RCOphth. Each question is supplemented with a detailed explanation of the right answer as well as explanations for the alternative answers, elucidating common mistakes made by students. These explanations are supplemented with schematic diagrams which greatly aid understanding. There are 8 chapters focusing on topics outlined in the Duke Elder exam, each containing a set of 25 questions and answers. This allows us to cover the most commonly seen topics appearing in the exam. The book will also provide a full mock assessment which will offer a unique opportunity for candidates to apply their knowledge in an exam context. The exam format is such that candidates must complete 90 MCQs in the space of 2 hours. Our mock will provide candidates with a 100 MCQ mock to be completed in the space of 2 hours 15 minutes.

Updated for its Second Edition, this question-and-answer review book offers a concise review of ophthalmology. It combines a review of basic ophthalmology with real-life clinical cases and multiple-choice questions with answers and explanations. More than 400 clinical photographs, fluorescein angiograms, and CT, MRI, and ultrasound images help readers master this visually oriented specialty. This edition has over 100 new full-color illustrations. Focusing on common diseases, the book covers all specialty rotations, plus key areas such as embryology, anatomy, pediatrics, plastics, and lenses. This edition includes new cases and information on new drugs, especially glaucoma drugs.

OphthoBook is the printed version of the amazing OphthoBook.com online book and video series. The combination of this text, along with the online video lectures, creates the most informative and easy-to-understand ophthalmology review ever written. It is geared toward medical students, optometry students, and non-ophthalmologists who want to learn more about the eye without getting bogged down with mindless detail. The book is broken down into ten chapters: 1. Eye History 2. Anatomy 3. Glaucoma 4. Retina 5. Infection 6. Neuroophthalmology 7. Pediatric Ophthalmology 8. Trauma 9. Optics 10. Lens and Cataract Each chapter also includes "pimp questions" you might be asked in a clinic. Also, an entire chapter of ophthalmology board-review questions, flashcards, and eye abbreviations. Perhaps most useful, each chapter corresponds to the 20-minute video lectures viewable at OphthoBook.com. And lots of fun cartoons!

Multiple Choice Questions in Ophthalmic and Neuroanatomy was written from notes that made by the author while preparing for the College of Ophthalmologists' primary examination. At the time it was difficult to gauge the standard expected as there were no questions available. This book aims to help many candidates who need to learn this sort of anatomy and hopes that its appeal extends beyond budding ophthalmologists and general surgeons to include optometrists and orthoptists. The questions deal with the following topics: osteology; anatomy of the head and neck; vascular anatomy; neuroanatomy; orbital and autonomic anatomy; ocular adnexae and extraocular muscles; cranial nerves and visual pathway; ocular anatomy; and embryology.

MCQs for FRCOphth Part 2 is a key resource for candidates preparing to sit the Royal College of Ophthalmologists examination. Written by experts in the field, it is carefully mapped to the RCOphth curriculum, providing comprehensive preparation for all aspects of this challenging exam. Written for the new FRCOphth format, it contains 360 questions organised into five sections to reflect the subdivisions of the exam. A mock examination of 90 questions enables trainees to assess their level of knowledge, and practise the technique and approach needed for the examination. In addition to a small ratio of illustration based questions to reflect the real FRCOphth exam it also places an emphasis on areas that are not well covered in other materials, such as GMC and RCOphth guidelines. All answers are accompanied by detailed explanations and relevant further reading sources, providing candidates with high-quality self-assessment. Offering a true test of the reader's ophthalmology knowledge, this is a must-buy for anyone preparing for the FRCOphth part 2 written exam.

Approach your exams with confidence using Review Questions in Ophthalmology, Third Edition. You'll find a concise review of all specialty rotations in ophthalmology, plus key areas such as embryology, anatomy, pediatrics, plastics, and lenses. Real-life clinical cases and more than 1,000 multiple choice questions with answers and explanations in this comprehensive review of ophthalmology provide core knowledge for all residents and fellows in ophthalmology, preparing you for success – both on your exams and in your practice! Test yourself with 1,000+ multiple choice questions, including answers and explanations. Clearly visualize what you're likely to see on exams and in practice, thanks to more than 400 clinical photographs, fluorescein angiograms, and CT, MRI, and ultrasound images. Focus on common diseases for more useful self-assessment and real-life clinical preparation.

So what's so special about doctors and their families? Many doctors feel that they are expected to give too much of their time to a medical career to the detriment of their family and their personal lives. This book is a practical guide to provide support and ideas on how to cope with stresses directly suffered or passed on from a relative or spouse. Written in a clear and practical style using information collated from family members describing their feelings about having a doctor in the family it provides unique and vital information on how to minimise the effects of having a medical career on the family. Essential reading for doctors and their families.

The updated Third Edition of this manual is a comprehensive self-assessment review of ophthalmology and a valuable study aid for any ophthalmologist or ophthalmologist-in-training. It contains over 3,000 true/false, matching, and multiple-choice questions covering the entire field of ophthalmology, including the subspecialties. Answers are provided along with brief explanations and extensive references. Several hundred new questions have been added to this new edition, with significantly updated content and revised, expanded explanations. Two new chapters cover General Medicine and International Ophthalmology. This edition also includes more than 100 full-color photographs depicting ocular pathology and ophthalmic conditions.
