Presents an illustrated history of England, Scotland, Wales and Ireland. This title takes the reader on a journey from prehistoric times onwards, examining such topics as the spread of literacy, the development of transport, and the evolution of country houses on the way. It provides an introduction to British and Irish history.

The History of Britain and Ireland traces the key events that shaped the societies living in the British Isles from the earliest times to the present day. From the Roman conquest of 43 CE to the Norman conquest of 1066, from the Elizabethan age of Shakespeare to the Victorian age of Charles Dickens, and from the Hundred Years War of the 14th and 15th centuries to the Iraq and Afghan wars of the 21st century, this beautifully illustrated book provides a definitive visual chronicle of the most colorful and defining episodes in British history. The story begins at least half a million years ago when humans started to make their home in Britain. Around 3000 BCE, the first Britons were making their mark on the landscape at remarkable sites such as the stone village of Skara Brae in Orkney and the earliest earthworks at Stonehenge. They entered the annals of recorded history with Julius Caesar's exploratory expedition across the Channel in the late summer of 55 BCE. From then on the small group of islands off the west coast of Europe was never far from the center of world affairs: pioneering the industrial revolution, creating the largest empire the world has ever seen, fighting two world wars in the 20th century, and finally coming to terms with a new status in a fast-changing global economy. The History of Britain and Ireland combines a spread-by-spread narrative of events with a wealth of supporting features on the decisive turning points in the long and fascinating story of the British

Isles, and on the outstanding individuals-from Geoffrey Chaucer and Queen Elizabeth I to Charles Darwin and Winston Churchill-who helped shape that story.

From highly experienced teacher Jürgen Kramer, *Britain and Ireland* is a handbook on the history of the British Isles that recounts the history of the two states – the United Kingdom of Great Britain and Northern Ireland and the Republic of Ireland (Eire) – and four nations – the Irish, the Welsh, the Scottish, and the English – from prehistory to the present. Accompanied by numerous illustrations and information boxes, and also an extensive selection of documents with questions to challenge readers, the book has a unique approach that presents not only the story of what happened in the British Isles, but its interdependence with Europe and the rest of the world. With chapters organized chronologically, and including a glossary and selected further reading, this is a must for all students of British and Irish studies.

WINNER OF CURRENT ARCHAEOLOGY'S BOOK OF THE YEAR 2019 "A wonderful guide to the many megaliths of Britain's Neolithic and Bronze Age." --Mike Parker Pearson, Professor of British Later Prehistory at UCL This is the most comprehensive and thought-provoking field guide ever published to the iconic standing stones and prehistoric places of Britain and Ireland. The ultimate insiders' guide, it gives unparalleled insight into where to find prehistoric sites and how to understand them, by drawing on the knowledge, expertise and passion of the archaeologists, theorists, photographers and stones aficionados who contribute to the world's biggest megalithic website – the Megalithic Portal. Including over 30 maps and site plans and hundreds of colour photographs, it also contains scores of articles by a wide range of contributors, from archaeologists and archaeoastronomers to dowsers and geomancers, that will change the way you see these amazing survivals from our distant past. Locate over 1,000 of Britain and Ireland's most atmospheric prehistoric places, from recently discovered moorland circles to standing stones hidden in housing estates. Discover which sites could align with celestial bodies or horizon landmarks. Explore acoustic, colour and shadow theory to get inside the minds of the Neolithic and Bronze Age people who created these extraordinary places. Find out which sites have the most spectacular views, which are the best for getting away from it all and which have been immortalized in music. And don't forget to visit the Megalithic Portal website and get involved by posting your discoveries online. Contributors
