Are You Ready to Ace the Pharmacology Final Exam? If so, did you know that going through practice questions in one of the most effective strategies that you can use to learn the information that you need to know? That is exactly why you need to grab a copy of this book if you're a Respiratory Therapy student. Inside, we're going to share some of our best practice questions with you. All, of course, designed to help you prepare for (and pass) your Cardiopulmonary Pharmacology final exam. So if you're ready to boost your knowledge to a new level, I'll see you on the inside. About the Author Johnny Lung, the founder of Respiratory Therapy Zone, is a Registered Respiratory Therapist who has helped thousands of students pass the licensure board exams through books, videos, study guides, and online courses. You can learn more by going to RespiratoryTherapyZone.com What Students are Saying "I passed it on my first attempt, just like you said." - Deanna H. "They helped me pass boards on my first attempt, and thankfully they're much more affordable than the other study guides out there." - Joy A. "I love their practice questions! I highly recommend to their resources for the TMC Exam and Clinical Sims." - Megan L. "Their practice questions are challenging and really make you think! So helpful!" - Susanna H. "They keep the information basic and easy to understand without all the complicated nonsense. I highly recommend their stuff for the board exams." - Timothy H.

A workbook to help students practice essay style exam questions for an undergraduate pharmacology final exam.

Pharmacology Test Prep is an outstanding collection of 1500 clinical multiple-choice questions written according to USMLE guidelines and classified by learning objective and difficulty. The questions and answers in this book cover all the areas that are included in topic-based and organ system-based courses in the first two years of medical school. This book provides medical students preparing to take the USMLE with a thorough review of pharmacology concepts and is an excellent review book for those needing to brush up on pharmacology for their rotations. Key Features: Questions require students to analyze information before choosing the best answer Full explanations are included with answers, giving students a comprehensive USMLE review tool Organized along clinical as well as pharmacological lines, making it suitable for both Step 1 and Step 2 exam preparation

Accompanying CD-ROM contains a 265-question examination with rationales and test-taking tips for additional eview.

"As a working parent of 4yearold triplet daughters, I understand time management presents one of the greatest barriers to my pharmacology students' success. Many students feel that cold sense of overwhelm and information overload. This easytoread guide organizes pharmacology into manageable, logical steps you can fit in short pockets of time. The proven system helps you memorize medications quickly and form immediate connections. With mnemonics from students and instructors, you'll see how both sides approach learning. After you've finished the 200 Top Drugs in this book, reading pharmacology exam questions will seem like reading plain English. You'll have a new understanding of pharmacology to do better in class, clinical and your board exam. You'll feel the confidence you'd hoped for as a future health professional. For patients and caregivers, this book provides a means to memorize medications to quickly and articulately communicate with your health providers." --from the back cover.

The critical thinking and study questions in this book include review of knowledge, application of knowledge to nursing care, analysis of nursing situations that require clinical decision-making, and prioritization of nursing actions. -- Publisher description

A new guide designed to ensure confident prescribing in specialist areas. The need for this text stems from the necessity to develop non-medical prescribing in practice. It offers a resource for all non-medical prescribers including nurses, pharmacists, optometrists, physiotherapists and other healthcare professionals who desire to become supplementary or independent prescribers in their field. The book is divided into two comprehensive sections and provides an overview of non-medical prescribing by healthcare professionals other than doctors.

Pharmacology can be difficult. But with the right text, understanding drugs and how they work doesn't have to be! Using easy-to-follow language and engaging learning tools - like Memory Joggers, Clinical Pitfalls, Do Not Confuse, and Drug Alerts - the second edition of Understanding Pharmacology: Essentials for Medication Safety helps readers really understand how drugs work. In addition to the popular critical thinking activities from the first edition, the second edition also includes more chapter review questions, updated content, and a new organization that centers on the different body systems. For students who have a limited background in the sciences and want complete preparation for licensure exams and clinical practice, there is no better choice than Understanding Pharmacology, 2nd Edition! Entire unit reviewing math, weights and measures, and dosage calculation minimizes readers' anxiety and promotes medication safety. Clever, easy-to-recognize margin icons help visual learners remember essential side effects of drugs. Simplified heading structure replaces intimidating terminology (i.e. pharmacokinetics) with simplified language (How These Drugs Work) to increase understanding of concepts. Drug Alert!, Do-Not-Confuse, and Clinical Pitfall boxes highlight important tips for safe medication administration. Memory Jogger boxes help readers remember important drug information. Get Ready for Practice sections at the end of each chapter include key points, chapter review questions, and critical thinking activities to reinforce learning. 10th grade reading level uses straightforward, everyday language to really enhance readers' understanding of pharmacology concepts. Incorporation of adult learning theory features both a simple to complex organization of material along with answers to why readers need to learn something. NEW! Body system organization helps readers better understand drugs that are specific to particular body systems. NEW! More chapter review questions have been added to the text. All review questions are now organized into one of two categories: Test Yourself on the Basics and Test Yourself on Advanced Concepts.

2 Books in 1! Q&A Course Review NCLEX® prep Pharmacology made manageable. Assure your mastery of pharmacology nursing knowledge while improving your critical-thinking and test-taking skills. Over 1,200 NCLEX®-style questions on medication administration provide the practice you need to build your confidence. Rationales for both correct and incorrect answers as well as Medication Memory Joggers for select questions. NEW! FREE, 30-day access to Davis Edge NCLEX-RN® included with purchase. Test yourself with 10,000+ challenging questions; review proven test-taking strategies; and prepare for the biggest test of your career with simulated NCLEX exams.* *Offer included with new, print books. See what students are saying online... Great book! "If you are taking pharmacology, you MUST get this book! It is amazing and helps prepare you for those critical thinking NCLEX style questions. Such a great buy, would recommend to ALL nursing students!" A must-have for Nursing Pharmacology! "This book is a must have for finishing nursing pharmacology! I wouldn't had been able to finish the class without this book & I did receive an A. Great questions with clear and concise rationales. I prefer the FA Davis Success Series to any other NCLEX test prep books out there. ... well worth the cost." Pharmacology Life Saver. "This book has so many good questions with even better rationales to help learn pharmacology. I'm not a good test taker but this has really helped me learn how to read through a question, rule things out, and explain why each answer is correct. I definitely recommend this to any nursing students in pharmacology class as well as anyone studying for the NCLEX." Don't miss the other Success Series titles... Richardson: Pediatric Success, 3rd Edition (ISBN-13: 978-0-8036-6812-6) Curtis: Psychiatric Mental Health Nursing Success, 3rd Edition (ISBN-13: 978-0-8036-6040-3) De Sevo: Maternal and Newborn Success, 3rd Edition (ISBN-13: 978-0-8036-5941-4) Colgrove: Med-Surg Success, 3rd Edition (ISBN-13: 978-0-8036-4402-1) Nugent: Test Success, 8th Edition (ISBN-13: 978-0-8036-6909-3)
