Archery. Archery, or shooting with a bow and arrow, is probably the oldest sport in existence. Prehistoric man used a bow and an arrow to hunt, and during the Middle Ages armies utilized the skill of bowman to win wars. Today people participate in archery for the sheer enjoyment of target shooting and hunting.

designers with a systematic decision-making process for developing a curriculum that addresses unique and diverse needs. And it allows designers to incorporate national, state, and local content and assessment standards in their curricula. The book takes teachers through every phase of curriculum design: foundational understanding of design, development, implementation, and evaluation. Further, it shows teachers how to document that their curriculum is working—a valuable asset in an era of budget cuts. Other outstanding features

education and is now emerging in physical education. This book defines Cooperative Learning in physical education and examines how to implement Cooperative Learning in a variety of educational settings. It explores Cooperative Learning in physical education from three main perspectives. The first, context of learning, provides descriptions of Cooperative Learning in different levels of education (elementary school, secondary school, and university physical education). The second, Cooperative Learning in the curriculum, offers case

studies from teachers and researchers of their experiences of implementing Cooperative Learning within their own national context. The third perspective, key aspects of Cooperative Learning, examines how the different elements of the model have been foregrounded in efforts to enhance learning in physical education. As the only text to provide international perspectives, from eight different countries, of Cooperative Learning in physical education, this book is important reading for any student, researcher or teacher with an interest in physical education, sport
