Then, about 1967, I completely stopped wearing my mother's clothes and never did it again. Later, in the fall of 1979, I bought my own female clothing and, within a few months, went public for the first time. I was never forced to cross-dress. Once, however, I was asked if I would dress as a girl for a Cub Scout program. I refused. I hadn't started cross-dressing yet and I couldn't bear the ...

Brought together in India through a series of hare-brained adventures are Arthur, an old bohemian from Cologne; Albert, otherwise known as Bear, a snack bar owner who emigrated to Goa; Gerd, a German businessman with a mid-life crisis; and Sherie, a stunningly good-looking prostitute from Bombay. Together, they embark on a mission to find a mystic figure in the Himalayas: The Golden Biker, who supposedly cruises through the mountains on a golden motorbike, to punish the evildoers and give to those who mean well some of his not less mystical marihuana... known among aficionados as the best grass in the world. However, the route the foursome has to undertake riding some ancient motorbikes called Enfield Bullets, across all of India is rather long and full of danger. Increasingly so, if you have a gang of ill-tempered Indian Mafiosi, two permanently stoned Israeli secret service guys, a gang of politically correct gypsies, one involuntary guru, a stark-naked blowgun expert, a muddle brained but fanatical old Nazi including his private army, as well as two freelance killers from Bombay at your heels. And that is only the beginning of a spiral of misunderstandings and catastrophes, which almost lead up to an international incident. The four protagonists however face all obstacles and finally reach their goal, an until hitherto unknown valley in the Himalayas... where in a furious battle all involved parties fight amongst and against each other, culminating in a rather surprising finale. Existing locations and typical Indian peculiarities are woven into this crazy story turning it into a humorous adventure story Golden Biker is fast and furious, colourful and a sidesplitter throughout.

Have you seen someone that looks like someone you know, but it is not them.? How about things you believe you see and feel that lack an explanation. A new race of beings, called Tolasians, have been existing within the interstitial spaces of homes, and throughout our world for more than 500 years. They have existed in a gas stasis form until now. Meet Jari and Deri, the first Tolasian beings to make physical contact with humans. Life begins with Matt and Keri's marriage to Jari and Deri. The excitement of hybrid children and the circumstances challenging a human-Tolasian pairing is exciting, especially when coupled with the fact that Jari is Tolasian royalty. The positive side of the pairing is that Matt and Keri will never grow old; nor will their hybrid children. The book is easy reading and would be enjoyed by all family members.

Pleasures and Perils follows a group of young girls living on Nevis, an island society in the Eastern Caribbean. In this provocative

ethnography, Debra Curtis examines their sexuality in gripping detail: why do Nevisian girls engage in sexual activity at such young ages? Where is the line between coercion and consent? How does a desire for wealth affect a girl's sexual practices? Curtis shows that girls are often caught between conflicting discourses of Christian teachings about chastity, public health cautions about safe sex, and media enticements about consumer delights. Sexuality's contradictions are exposed: power and powerlessness, self-determination and cultural control, violence and pleasure. Pleasures and Perils illuminates the methodological and ethical issues anthropologists face when they conduct research on sex, especially among girls. The sexually explicit narratives conveyed in this book challenge not only the reader's own thoughts on sexuality but also the broader limits and possibilities of ethnography.

An unsettling novel that traces the faltering orbits of the members of one family from a hidden love triangle to the ten-year-old son whose problem may pull everyone down.

Journalism at its very best: Noel Young, Sunday Mail, Scotland In search of the worlds greatest stories my hands have held Einsteins brain and Hitlers golden gun. My foot has stepped on the foot of the Queen of England. My body has survived an airliner crash, a submarine accident and beatings after being captured as a spy in Africa. I avoided execution in Syria, Turkey, the Congo and Paraguay. I was ambassador of a country in the South China Sea. In America I faced down the Mafia with a gun in Miami and in Texas convinced the Ku Klux Klan to take off their hoods for the first time. Then I helped change world travel by taking automatic weapons through airport security in many countries without getting caught or shot. (See cover picture) Here is my story. When Laytner got the first and only photograph of the dread terrorist, Carlos the Jackal, Paris Match Picture Editor Michel Sola shouted, We have James Bond working for us! You are not just the James Bond of Journalism. You are also Jason Bourne, Phillip Marlowe, Sherlock Holmes and Colombo. John Wellington, Managing Editor The Mail on Sunday, London

More than one hundred Mississippi writers recount their experiences growing up in the South, including encounters with racism

From the Gibson Girl to the flapper, from the vamp to the New Woman, Carolyn Kitch traces mass media images of women to their historical roots on magazine covers, unveiling the origins of gender stereotypes in early-twentieth-century American culture. Kitch examines the years from 1895 to 1930 as a time when the first wave of feminism intersected with the rise of new technologies and media for the reproduction and dissemination of visual images. Access to suffrage, higher education, the professions, and contraception broadened women's opportunities, but the images found on magazine covers emphasized the role of women as consumers: suffrage was reduced to spending, sexuality to sexiness, and a collective women's movement to individual choices of personal style. In the 1920s, Kitch argues, the political prominence of the New Woman dissipated, but her visual image pervaded print media. With seventy-five photographs of cover art by the era's most popular illustrators, *The Girl on the Magazine Cover* shows how these images created a visual vocabulary for understanding femininity and masculinity, as well as class status. Through this iconic process, magazines helped set cultural norms for women, for men, and for what it meant to be an American, Kitch contends.
