"Ethics education cannot guarantee the eradication of all unethical conduct. Nevertheless, the Department of Defense requires professional military education (PME) institutions to teach ethics, in part, to improve officers' ability to 'make ethical decisions based on the shared values of the Profession of Arms.' To this end, the true utility of ethics education lies in its ability to help students develop the requisite skills for ethical reasoning, which in turn offers reasonable hope for curbing misconduct. To determine the efficacy of Air Force efforts to teach ethics in officer PME, the author gleaned five components of effective ethics programs from published studies and then analyzed the curricula of seven Air Force Officer PME programs to determine the degree to which these components were present. Overall, Air Force Officer PME contains each component in varying degrees, but lacks efficacy in (a) convincing students of their risk for unethical behavior and (b) achieving unity of effort in ethics education throughout the PME continuum. The paper concludes with specific improvement recommendations."--Abstract.

This Manual prescribes the Enlisted Professional Military Education (E-PME) system. E-PME is a primary element in both the enlisted training and advancement systems. Included in the manual are rules for analysis, design, development, implementation, evaluation, and administration of the E-PME Requirements and system.

Les écosystèmes d'affaires représentent des enjeux à la fois économiques et territoriaux. Plusieurs dimensions les caractérisent : une grande hétérogénéité des acteurs, un destin commun, un standard ou un savoir-faire utilisé par plusieurs entreprises, un ou plusieurs leaders dont le rôle est crucial pour l'écosystème, une vision partagée par les autres membres de l'écosystème d'affaires et des processus de coopération. À partir d'études de cas, mais aussi de points de vue théoriques structurants, cet ouvrage propose un état des lieux des connaissances actuelles des écosystèmes d'affaires. Il examine plus particulièrement le rôle des PME dans ces coalitions. Comment les différencier des autres formes de réseaux ? Quel cadrage théorique utiliser pour bien appréhender les écosystèmes ? Quelles stratégies mettre en oeuvre ? Comment

coordonner l'écosystème ?
