The concepts of force and power seem to convey similar meanings and are often confused for each other. But in physics, they are not interchangeable. Force is the fundamental result of an interaction between two objects, while power is an expression of energy consumed over time (work), of which force is an element. Force and

worked as a "healing psychiatrist" during his long and distinguished career, uses theoretical concepts from particle physics, nonlinear dynamics, and chaos theory to support his study of human behavior. This is a fascinating work that will intrigue readers from all walks of life!

An accessible exploration of best-selling author's most famous work, *The Map of Consciousness*, that helps readers experience healing and transcendence. We are all born with a level of consciousness, an energetic frequency within the vast field of consciousness. And with *The Map of Consciousness*, we can truly understand the total spectrum of human consciousness. Using a unique muscle-testing method, Dr. David R. Hawkins conducted more than 250,000 calibrations during 20 years of research to define a range of values,

attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. Hawkins first wrote about in his best-selling book, Power vs. Force. With the Map, Dr. David R. Hawkins laid out the entire spectrum of consciousness, from the lower levels of Shame, Guilt, Apathy, Fear, Anger, and Pride; to Courage, Acceptance, and Reason; all the way up to the more expanded levels of Love, Ecstasy, Peace, and Enlightenment. These "higher" energy fields are a carrier wave of immense life energy. An essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields, *The Map of Consciousness Explained* offers readers an introduction and deeper understanding of the Map, with visual charts and practical applications to help them heal, recover, and

"Overwhelming! A masterpiece! A lifetime work!" — Sheldon Deal, president, International College of Applied Kinesiology Building on the accumulated wisdom of applied kinesiology (diagnostic muscle-testing to determine the causes of allergies and ailments) and behavioral kinesiology (muscle-testing to determine emotional responses to stimuli), David R. Hawkins MD, PhD has taken muscle-testing to the next level, in an effort to determine what makes people and systems strong, healthy, effective and spiritually sound.

practice, the primary aim was to seek the most effective ways to relieve human suffering in all of its many forms. The inner mechanism of surrender was found to be of great practical benefit and is described in this book. Dr Hawkins ' s previous books focused on advanced states of awareness and Enlightenment. Over the years, thousands of students had asked for a practical technique by which to remove the inner blocks to happiness, love, joy, success, health and, ultimately, Enlightenment. This book provides a mechanism for letting go of those blocks. The mechanism of surrender that Dr Hawkins describes can be done in the midst of everyday life. The book is equally useful for all dimensions of human life: physical health, creativity, financial success, emotional healing, vocational fulfillment, relationships, sexuality and spiritual growth. It is an invaluable resource for all professionals who work in

the areas of mental health, psychology, medicine, self-help, addiction recovery and spiritual development.

The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world ' s major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness returns to the exploration of the ego ' s expressions and inherent limitations and gives detailed explanations and instructions on how to transcend them. As with the reading of Dr. Hawkins ' previous books, the reader ' s level of consciousness is advanced as a consequence of exposure to the information itself. This opens up

avenues to the relief of suffering for oneself and others, which fulfills the purpose of the work and the intention to facilitate the reader ' s own Enlightenment.

Discusses the forces people can control versus the unseen powers that no one can control but actively govern over many lives.

Reveals a breakthrough in documenting a new era of human knowledge. Only in the last decade has a science of Truth emerged that, for the first time in human history, enables the discernment of truth from falsehood. Presented are discoveries of an enormous amount of crucial and significant information of great importance to mankind. Truth and Reality, Dr. Hawkins states, have no secrets, and everything that exists now or in the past- even a thought- is

identifiable and calibratable from the omnipresent field of Consciousness itself.

This is the second volume of a trilogy that began with Power vs. Force and will be completed in the year 2002 by the publication of the third volume entitled I: Reality and Subjectivity. The Eye of the I (which calibrates at 950) is more advanced than Power vs. Force (which calibrates at 850) and brilliantly reveals the very core of the spiritual process critical to the state of Enlightenment. The intrinsic power of the information provided in this startling classic is sufficient of itself to elevate the consciousness of the reader. This likelihood has been anticipated and provided for by preparatory recontextualizations. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate

the spiritual teachings. The Eye of the I is a brilliant work that dissolves the barriers between the known and the unknown, between science and spirituality, and between the Newtonian linear paradigm of the ego and the nonlinear reality of Enlightenment. With the resolution of the self, the Self shines forth and reveals one ' s true identity.

This, the eighth book in a progressive series based on the revelations of consciousness research, resulted from a group of lectures given by the author at the request of the original publisher of A Course in Miracles, along with members of several self-help groups, including Alcoholics Anonymous, ACIM, Attitudinal Healing Centers, other recovery groups, and a number of clinicians. Our society lives with constant stress, anxiety, fear, pain, suffering, depression, and worry.

Alcoholism, drug addiction, obesity, sexual problems, and cancer are constantly in the news. Mankind in general has had very little information about how to address life ' s challenges without resorting to drugs, surgery, or counseling. In this book, you will learn why the body may not respond to traditional medical approaches. Specific instructions and guidelines are provided that can result in complete healing from any disease. The importance of including spiritual practices in one ' s healing and recovery program is explained, along with how easy it is to incorporate them in the process. Healing and Recovery provides clinically proven self-healing methods that will enable you to take charge of your health and live a happy, healthy, and fulfilling life.
