step, our own divine nature right where this matters most: in the middle of our fragmented, everyday lives.

~~REALITY (New 2020 Edition) | Peter Kingsley~~

"Peter Kingsley is a successor to Carl Jung and Joseph Campbell. His lectures and writings -- especially his latest book, Reality-- reveal hidden dimensions of consciousness and how it manifests in the world. His message conveys hope and meaning, and reveals majestic qualities of the mind we have forgotten and which have been ignored by Western 'authorities' for centuries.

recordings of Peter Kingsley's talks. People have often asked if all of the recordings would one day be available as digital downloads. Up until very recently, only a limited number of Peter's talks had been released in that format.

~~Reality by Peter Kingsley - Home | Facebook~~

For Kingsley, it's bad: real Reality doesn't go anywhere, doesn't move. It's the opposite of the constant renewal of 'Seek the Mystery', this Absolute Reality. On the surface of it, that's worrying; there is no progression, only perfection, always and forever.

(Reality, p 455) Reality is a journey of re-discovery. It is a “ roots ” document, an over-long meditation on poems Peter Kingsley ’ s invisible mentors would have never thought necessary for initiates of a secret Pythagorean tradition in which “ ...the emphasis was placed less and less on being given teachings and more and more on finding the inner resources to discover your own answers inside yourself. ”

published research on both Parmenides and Empedocles, and, to the surprise of no one who is familiar with his work, he holds nothing back.

REALITY introduces us to the extraordinary mystical tradition that lies right at the roots of western philosophy, science and civilization.

"The mystical tradition that lies at the root of Western culture and the magic of the ancient masters of wisdom who laid the foundations for the world we now live in are introduced in this book. Containing lost and forgotten

ancient Greek texts in modern translation, this book relates the teachings of Parmenides, Empedocles, and others like them--spiritual guides and experts in other states of consciousness, prophets and magicians, and healers and interpreters of dreams. Based on texts from more than 2,000 years ago, it also documents the process that led to their work and teaching being distorted, covered over, and forgotten." --Publisher description.

This book brings the key evidence together and presents a new picture of Parmenides, the ancient Greek poet, as priest, initiate and healer.

Catafalque offers a revolutionary new reading of the great

psychologist Carl Jung as mystic, gnostic and prophet for our time. Much more than a brilliant spiritual biography, this book holds the key to understanding why western culture is dying--and what we, now, can do to help it.

Revealing a forgotten truth in the present day, this account illuminates the crumbling political and economic structures of the West, shedding light on an ongoing and arduous search for a sense of purpose. Recounting a true story, this exploration tells of a wandering Mongol shaman who made a dramatic appearance around the Mediterranean centuries before the time of Christ. Highlighting how this nomad came as an envoy on a mission of purification, this study records how he met with a man who became tremendously

influential in Western science, philosophy, culture, and religion: Pythagoras. The essence of Western civilization is said to have originated from this meeting and this examination argues that today ' s conflicts and tensions have stemmed from taking this monumental occasion for granted, forgetting that there must be a greater meaning to life than everyday efforts and struggles. Reflecting on a time when Eastern and Western cultures were one, this evocation contends that there is still a common spiritual heritage to all civilizations. A unique collaboration between the author and archaeologists, historians, and shamans from around the world, this document has the potential to change the future for all.

The second half of the book re-examines problems regarding the connections between ancient magic, science, and religion. More specifically, it traces for the first time a line of transmission from Empedocles and the early Pythagoreans down to southern Egypt, and from there into the world of Islam.

Peter Kingsley is famous as both a historian and a teller of the future long before it appears. Exquisitely written, his *Book of Life* is a wide open door into the timeless magic and unfathomable mystery we have managed to forget.

Parmenides and Empedocles, along with Heraclitus the most important of the pre-Socratic philosophers, were at

## Read PDF Reality Peter Kingsley

the same time among the greatest poets of the ancient world. But their work is rarely treated and still more rarely translated in its original form--as poetry. The complete extant fragments of Parmenides and Empedocles are collected here for the first time in a translation responsive to the original verse texts. Parmenides' philosophical fragments are here given as the poetic remains of the thinker from Elea in Southern Italy whom Socrates wondered at and Plato held in awe. What emerges from the poetry is at once an uncompromising vision of absolute Being and a compassionate understanding of the human cosmos: It is the body grows to Mind. All men desire the same thing, apprehend the same The plenum is thought, and thought preponderates. The poetry of

Empedocles--reincarnationist, naturalist, cosmologist, religious leader, physiologist, and a metaphysician--is presented here in the personal idiom of the fifth-century Sicilian who has been called the last of the Greek shamans: I have already been A bush and a bird A boy and a girl A mute fish in the sea.

Christians are supposed to be “ the light of the world. ” Yet we seem to spend most of our time stumbling in the dark. We want answers carved in stone, and instead we get uncertainty. We want a clearly marked path and a panoramic view of the future, and God gives us only fleeting glimpses of what lies ahead—and just enough light to take the next step. So what do we do? We take the next step. In

her much anticipated follow-up to *Looking for God*, Nancy Ortberg takes readers on a journey that began thousands of years ago. From an ancient cave in Turkey to the California coast, Nancy highlights the often unexpected, sometimes imperceptible, yet always extraordinary means God uses to light our way through even the most painful and challenging moments in life.

In Kingsley Amis ' s virtuoso foray into virtual history it is 1976 but the modern world is a medieval relic, frozen in intellectual and spiritual time ever since Martin Luther was promoted to pope back in the sixteenth century. Stephen the Third, the king of England, has just died, and Mass (Mozart ' s second requiem) is about to be sung to lay him

to rest. In the choir is our hero, Hubert Anvil, an extremely ordinary ten-year-old boy with a faultless voice. In the audience is a select group of experts whose job is to determine whether that faultless voice should be preserved by performing a certain operation. Art, after all, is worth any sacrifice. How Hubert realizes what lies in store for him and how he deals with the whirlpool of piety, menace, terror, and passion that he soon finds himself in are the subject of a classic piece of counterfactual fiction equal to Philip K. Dick ' s *The Man in the High Castle*. *The Alteration* won the John W. Campbell Memorial Award for best science-fiction novel in 1976.
