guides artists through the process of drawing the human figure as it pertains to anatomy, proportions, volume, mass, gesture, movement, and expression. From there, the book reveals how these characteristics come together using light, shape, line, and form to accurately depict the human figure in a variety of everyday poses, including standing, sitting, reclining, and action. Each section features color photographs of people in several "core" poses (e.g., sitting, reclining, and action), as well as multiple variations of those poses. Step-by-step artist illustrations demonstrate how to render the core pose, whereas illustrations and professional tips demonstrate how to turn the core pose into a new variation. In addition, step-by-step drawing instructions and techniques demonstrate how to capture realistic poses as they differ from one person to the next across a range of
