All they want is to rock out to some music and party in 71st century Wonderville. But when Professor Joe Parker is kidnapped by his rival Jack Mitchell, Matthew "M Kool" Reese and his posse must embark on an epic quest to save the Professor. Time traveling, portal hopping, and battling false gods is not the party they envisioned. While rescuing the Professor, M Kool gains godlike powers—twice—and saves a princess from fascist clowns... what other twists and thrills will their adventure unfold? As they face off against a giant beast, the crew must make a final stand together and kick some serious ass with a rock song to save the world. They will not stop until the enemy is vanquished. Will they find the courage to conquer their enemy and party harder than they ever have before?

CMJ New Music Report is the primary source for exclusive charts of non-commercial and college radio airplay and independent and trend-forward retail sales. CMJ's trade publication, compiles playlists for college and non-commercial stations; often a prelude to larger success.

For courses in Introduction to Rock Music Examine the social and business sides of rock history Rockin' Out: Popular Music In the U.S.A. analyzes the music and business of rock 'n' roll. Covering topics such as the rise of television idols, the proliferation of alternative sounds, and the influence of digital production techniques, this comprehensive, introductory text takes readers from the invention of the phonograph to the promise of the Internet. Joining longtime author Reebee Garafalo for the Sixth Edition, co-author Steve Waksman--professor at Smith College and heavily published rock scholar--has thoroughly revised each chapter to include new research and more current literature. NOTE: This ISBN is for a Pearson Books a la Carte edition: a convenient, three-hole-punched, loose-leaf text. In addition to the flexibility offered by this format, Books a la Carte editions offer students great value, as they cost significantly less than a bound textbook. Rockin' Out: Popular Music in the USA, Sixth Edition is also available via REVEL(tm), an interactive learning environment that enables students to read, practice, and study in one continuous experience.

In this second edition of Hands-On General Science Activities with Real Life Applications, Pam Walker and Elaine Wood have completely revised and updated their must-have resource for science teachers of grades 5–12. The book offers a dynamic collection of classroom-ready lessons, projects, and lab activities that encourage students to integrate basic science concepts and skills into everyday life.

The “master of heart-pounding suspense”—New York Times bestseller Phillip Margolin—returns with a new legal thriller starring Robin Lockwood. A young woman accuses a prominent local college athlete of rape. Convicted with the help of undisputable DNA evidence, the athlete swears his innocence and threatens both his lawyer and his accuser as he's sent to prison. Not long after, there's another rape and the DNA test shows that the same person committed both rapes—which is seemingly impossible since the man convicted of the first rape was in prison at the time of the second one. Now, the convicted athlete, joined by a new lawyer, is granted a new trial and bail. Shortly thereafter, his original lawyer disappears and his law partner is murdered. Robin Lockwood is a young lawyer with a prestigious small law firm and a former MMA fighter who helped pay for Yale Law School with her bouts. She is representing the victim of the first rape for her civil lawsuit against her rapist, who is now convinced the rapist is stalking her and trying to intimidate her. At the same time, another client is up on a murder charge—one that should be dismissed as self-defense—but the D.A. trying the case is determined to bring it to trial. Now she has to mastermind two impossible cases, trying to find the hidden truth that links the two of them. Phillip Margolin, the master of the legal thriller, returns in one of his twistiest, most compelling crime novels yet.
