Hola a todos. Mi coche es un Kia sportage CRDI JE 2.0 140cv 4x4 de Noviembre de 2006 y con caja de cambios manual de 6v. Yendo por autovia el coche empezó a perder fuerza y a hacer un ruido en el compartimento motor. Me detuve y paré el motor, le eché un vistazo pero no vi nada, ni perdida de líquidos ni humo ni olores, nada.

result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

program of careful study, planning, and development that began in 1960. The Education Research Center at the Massachusetts Institute of Technology (formerly the Science Teaching Center) was established to study the process of instruction, aids thereto, and the learning process itself, with special reference to science teaching at the university level. Generous support from a number of foundations provided the means for assembling and maintaining an experienced staff to co-operate with members of the Institute's Physics Department in the examination, improvement, and development of physics curriculum materials for students planning careers in the sciences. After careful analysis of objectives and the problems involved, preliminary versions of textbooks were prepared, tested through classroom use at

John Barnard revolutionised Formula 1, and motorsport as a whole, through his unrelenting quest for perfection in racing car design. Written with Barnard's cooperation and with input from dozens of associates, drivers and rivals, this biography tells the entire story, both personal and professional, of a British design genius. Barnard's technical achievements are explored in detail--and in accessible language--with special emphasis on his brilliant initiatives while at McLaren (the first carbon-fiber composite chassis) and Ferrari (the first semi-automatic gearbox). The Perfect Car is also a human-interest story, telling a tale of innovation under intense pressure while Barnard endeavoured to maintain a stable family life. This is a landmark book that will be relished by anyone interested in
