Overall IDOC monitoring - Solution Manager - SAP

Now, IDoc Monitoring is completely integrated into the application monitor functionalities of SAP Solution Manager.

That means: different

Online Library

Sap Monitoring

monitoring objects (e.g. outbound and inbound IDocs within one business process step) can be handled separately, as each monitoring object can be customized with its own own selection criteria, its own data collection frequency, and its own alerting thresholds, which would not be possible

Aspects of exchange development (tunneling, packaging, serialization, mapping). 5 All-New Topics in this 2nd Edition Explore the ALE distribution model, and two of the latest functionalities for IDoc monitoring: SAP Solution Manager and IDoc packaging.

Online Library Sap Monitoring Idocs With

Learn how to handle errors and monitor interfaces with SAP Application Interface Framework in this book. --

Over the last few years, financial statement scandals, cases of fraud and corruption, data protection violations,

Online Library

Sap Monitoring

and other legal violations have led to numerous liability cases, damages claims, and losses of reputation. As a reaction to these developments, several regulations have been issued:

Corporate Governance, the Sarbanes-Oxley Act, IFRS, Basel II and III,

Online Library Sap Monitoring

Solvency II and
BilMoG, to name just
a few. In this book,
compliance is
understood as the
process, mapped not
only in an internal
control system, that is
intended to guarantee
conformity with legal
requirements but also
with internal policies
and enterprise
objectives (in

Online Library

Sap Monitoring

particular, efficiency and profitability). The current literature primarily confines itself to mapping controls in SAP ERP and auditing SAP systems. Maxim Chuprunov not only addresses this subject but extends the aim of internal controls from legal compliance to include efficiency and

Online Library

Sap Monitoring

profitability and then well beyond, because a basic understanding of the processes involved in IT-supported compliance management processes are not delivered along with the software. Starting with the requirements for compliance (Part I), he not only answers compliance-

Online Library

Sap Monitoring

relevant questions in the form of an audit guide for an SAP ERP system and in the form of risks and control descriptions (Part II), but also shows how to automate the compliance management process based on SAP GRC (Part III). He thus addresses the current

Online Library

Sap Monitoring

need for solutions for implementing an integrated GRC system in an organization, especially focusing on the continuous control monitoring topics. Maxim Chuprunov mainly targets compliance experts, auditors, SAP project managers and consultants

Online Library Sap Monitoring

responsible for GRC products as readers for his book. They will find indispensable information for their daily work from the first to the last page. In addition, MBA, management information system students as well as senior managers like CIOs and CFOs will find a wealth of

Online Library

Sap Monitoring

valuable information
on compliance in the
SAP ERP
environment, on GRC
in general and its
implementation in
particular.

SAP is a market
leader in enterprise

Online Library

Sap Monitoring

business application software. SAP solutions provide a rich set of composable application modules, and configurable functional capabilities that are expected from a comprehensive enterprise business application software suite. In most cases, companies that adopt

Online Library

Sap Monitoring

SAP software remain heterogeneous enterprises running both SAP and non-SAP systems to support their business processes.

Regardless of the specific scenario, in heterogeneous enterprises most SAP implementations must be integrated with a variety of non-SAP

Online Library

Sap Monitoring

enterprise systems:

Portals Messaging
infrastructure

Business process
management (BPM)

tools Enterprise

Content Management
(ECM) methods and

tools Business

analytics (BA) and

business intelligence

(BI) technologies

Security Systems of

record Systems of

Online Library

Sap Monitoring

engagement. The tooling included with SAP software addresses many needs for creating SAP-centric environments.

However, the classic approach to implementing SAP functionality generally leaves the business with a rigid solution that is difficult and

Online Library

Sap Monitoring

expensive to change and enhance. When SAP software is used in a large, heterogeneous enterprise environment, SAP clients face the dilemma of selecting the correct set of tools and platforms to implement SAP functionality, and to integrate the SAP

Online Library

Sap Monitoring

Solutions With non-SAP systems. This IBM® Redbooks® publication explains the value of integrating IBM software with SAP solutions. It describes how to enhance and extend pre-built capabilities in SAP software with best-in-class IBM enterprise software, enabling

Online Library Sap Monitoring

clients to maximize return on investment (ROI) in their SAP investment and achieve a balanced enterprise architecture approach. This book describes IBM Reference Architecture for SAP, a prescriptive blueprint for using IBM software in SAP

Online Library

Sap Monitoring

solutions. The reference architecture is focused on defining the use of IBM software with SAP, and is not intended to address the internal aspects of SAP components. The chapters of this book provide a specific reference architecture for many of the architectural domains

Online Library

Sap Monitoring

that are each
important for a large
enterprise to establish
common strategy,
efficiency, and
balance. The majority
of the most important
architectural domain
topics, such as
integration, process
optimization, master
data management,
mobile access,
Enterprise Content

Online Library Sap Monitoring

Management, business intelligence, DevOps, security, systems monitoring, and so on, are covered in the book. However, there are several other architectural domains which are not included in the book. This is not to imply that these other architectural domains

Online Library Sap Monitoring

are not important or are less important, or that IBM does not offer a solution to address them. It is only reflective of time constraints, available resources, and the complexity of assembling a book on an extremely broad topic. Although more content could have been added, the

Online Library Sap Monitoring

authors feel confident that the scope of architectural material that has been included should provide organizations with a fantastic head start in defining their own enterprise reference architecture for many of the important architectural domains, and it is hoped that this book

Online Library Sap Monitoring

provides great value to those reading it. This IBM Redbooks publication is targeted to the following audiences: Client decision makers and solution architects leading enterprise transformation projects and wanting to gain further insight so that they can benefit from the

Online Library Sap Monitoring

Integration of IBM
software in large-
scale SAP projects. IT
architects and
consultants
integrating IBM
technology with SAP
solutions.
