This book introduces the reader to the relationship between the Italian national movement, achieved by the Risorgimento, and the Italian unification in 1860. These themes are discussed in detail and related to the broader European theatre. Covering the literary, cultural, religious and political history of the period, Beales and Biagini show Italy struggled towards nation state status on all fronts. The new edition has been thoroughly rewritten. It also contains a number of new documents. In addition, all the most up to date research of the last 20 years has been incorporated. The Risorgimento and the Unification of Italy remains the major text on nineteenth century Italy. The long introduction and useful footnotes will be of real assistance to those interested in Italian unification.

'Globalization' has become a popular buzzword for explaining today's world. The expression achieved terminological stardom in the 1990s and was soon embraced by the general public and integrated into numerous languages. This text makes the case that globalization is not so new after all.

"A useful, important book that reminds us, at the right time, how hard [European unity] has been, and how much care must be taken to avoid the terrible old temptations." --Los Angeles Times Dark Continent provides an alternative history of the twentieth century, one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take. Mark Mazower strips away myths that have comforted us since World War II, revealing Europe as an entity constantly engaged in a bloody project of self-invention. Here is a history not of inevitable victories and forward marches, but of narrow squeaks and unexpected twists, where townships boast a bronze of Mussolini on horseback one moment, only to melt it down and recast it as a pair of noble partisans the next. Unflinching, intelligent, Dark Continent provides a provocative vision of Europe's past, present, and future-and confirms Mark Mazower as a historian of valuable gifts.
