This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.

Providing a comprehensive overview of hot stamping (also known as ' press hardening '), this book examines all essential aspects of this innovative metal forming method, and explores its various uses. It investigates hot stamping from both technological and business perspectives, and outlines potential future developments. Individual chapters explore topics such as the history of hot stamping, the state of the art, materials and processes employed, and how hot stamping is currently being used in the automotive industry to create ultra-high-strength steel components. Drawing on experience and expertise gathered from academia and industry worldwide, the book offers an accessible resource for a broad readership including students, researchers, vehicle manufacturers and metal forming companies.

La Rivista Tecnica dell'Automobile, è il manuale monografico di manutenzione e riparazione meccanica. Pu ò essere usato da autoriparatori o appassionati esperti per operazioni di stacco, riattacco e sostituzione componenti e ricambi
