"Using Solo Ads For Traffic!" Solo ads are designed to basically promote a single ad to the subscribing list. These solo ads are often sent to all sources connected to the original feed with or without the recipients consent and can help bring you traffic. Many advertisers consider this style of ads to be more engaging and focused when compared to other styles. Here are some of the information you will learn: Solo Ad Basics The Benefits of Solo Ads How to Use Solo Ads Correctly Making Money with Solo Ads Building Your List with Solo Ads

Provides comparisons between different types of ads and their success rates in percentages, tips for making a headline in ad work, a look at the benefits of captions under photos, tricks for making people

respond to an ad, guidelines on things that should never be written in an ad, and more. Original.

How to build your list for free and create a real online business that gets maximum results with minimum fuss... fast! Solo ads are when you pay someone with an email list to send an email to their subscribers promoting your website. Usually that'll be a squeeze page and your job is to capture their email addresses. Now you can market to them. You can sell them useful and relevant information and in return they'll pay your bills. Put food on the table and a roof over your house. A good deal really. Solo Ads are paid traffic and best of all, it's ultra-targeted traffic. For example if you have a product on Labrador Dogs and find someone with a list of pet owners then a small percentage of people might be interested. You get a little warmer if you find a list owner with subscribers only interested in dogs. Not a larger percentage will want what you have to say. If you find a email list purely for Labrador owners then that is ultra-targeted. Your product is potentiall relevant to every single person on that list. Your response rates will go through the roof and you stack the odds of success in your favour.

I want to start by giving you a background on solo ads. Here's how I define solo ads for the purpose of this training: a solo ad is an

email advertisement that you will purchase from someone else in your niche that has an email list. That person will send your email advertisement out to their list recommending that their subscribers take a look at your ad. That's my formal definition of solo ads. When you think about purchasing a solo ad, you're purchasing an email that's going to be sent out to somebody who is in your niche that has subscribers on their list who meet your target market. In that email there is going to be either a link to an opt-in page so that people can become subscribers on your list, or, there will be a link to a sales page if you prefer to build your list with buyers instead of subscribers. I'm going to teach you how to find people in your niche from whom to purchase solo ads. I'll also give you some of the details for how you can continually grow your list over time through the use of these solo ads and much more!

Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the \$100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the

world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.

Ephesos to learn the great secret of the mysteries and sacrifices that were celebrated every year on her birthday. In this work Guy MacLean Rogers sets out the evidence for the celebration of Artemis's mysteries against the background of the remarkable urban development of the city during the Roman Empire and then proposes an entirely new theory about the great secret that was revealed to initiates into Artemis's mysteries. The revelation of that secret helps to explain not only the success of Artemis's cult and polytheism itself but, more surprisingly, the demise of both and the success of Christianity. Contrary to many anthropological and scientific theories, the history of polytheism, including the celebration of Artemis's mysteries, is best understood as a Darwinian tale of adaptation, competition, and change.
