Self-esteem is essential for psychological survival. It is an emotional sine qua non - without some measure of self-worth, life can be enormously painful, with many basic needs going unmet. One of the main factors differentiating humans from other animals is the awareness of self: the ability to form an identity and then attach a value to it. In other words, you have the capacity to define who you are and then decide if you like that identity or not. The problem of self-esteem is this human capacity for judgment. It's one thing to dislike certain colors, noises, shapes, or sensations. But when you reject parts of yourself, you greatly damage the psychological structures that literally keep you alive. Judging and rejecting yourself causes enormous pain. And in the same way that you would favor and protect a physical wound, you find yourself avoiding anything that might aggravate the pain of self-rejection in any way. You take fewer social, academic, or career risks. You make it more difficult for yourself to meet people, interview for a job, or push hard for something where you might not succeed. You limit your ability to open yourself with others, express your sexuality, be the center of attention, hear criticism, ask for help, or solve problems. This book is about stopping the judgments. It's about healing the old wounds of hurt and self-rejection. How you perceive and feel about yourself can change. And when those perceptions and feelings change, the ripple effect will touch every part of your life with a gradually expanding sense of freedom. ---- Self-Esteem

This long-awaited, fully revised second edition of the best-selling *The Self-Esteem Workbook* includes up-to-date information on brain plasticity, and new chapters on forgiveness, mindfulness, and cultivating lovingkindness and compassion. Inspiring techniques from the original book into a new and exciting project. This book uses a technique known as guided journaling to help readers teach themselves to vocalize their feelings, conquer self-doubt, discover their strengths- and generally change the way they think and feel about themselves for the better. The Self-Esteem Guided Journal offers you a ten-week program of writing exercises that will help you shift your focus from the things wrong with your life to the things that are right. The book begins with a week of journaling about non-judgment- regarding everything from people in the news to your own behavior. Weeks two and three guide you to discover your strengths and redefine your weaknesses. The exercises in weeks five and six help you review your past to see how formative events have affected your self-esteem. Week seven focuses on the impact of thoughts, while week eight works to help you learn how to hold to your own truths and stand up for yourself. In week nine, you'll directly explore your experiences with your own self-esteem Achilles heel, and finally, week ten helps you create daily opportunities to experience your personal worth and serves as a launching pad for future journaling activities.
