The colorful book features two 10-inch dolls and eight pages of clothes to cut out and dress the Michelle dolls include more than twenty outfits illustrated by David Wolfe. The paper doll book is fun for collectors of all ages and also offers an historic view of how Michelle Obama became America's favorite fashion icon during the presidential campaign and inauguration. Every outfit in the book was actually worn by Mrs. Obama. Especially noteworthy is the inclusion of the news making J.Crew skirt and sweater worn on "The Tonight Show with Jay Leno" and the black and white print dress worn on "The View." Of course, the highly publicized fashions worn during the Inauguration ceremonies are given pride of place in the book's center spread. There is the Isabel Toledo lemongrass Swiss lace coat ensemble, the Narcisco Rodriguez outfit worn at the concert and of course, the ivory floral/crystal ball gown destined for the Smithsonian. The beautiful bridal gown worn for the Obama's 1992 wedding is also included in the beautifully illustrated book.

Eddie Falco, Sheryl Crow, Athena Jones, and other breast cancer

survivors and "previvors" tell their powerful, inspiring stories in this collection. Drawing from first-hand interviews of successful, high-profile women from myriad industries and perspectives, award-winning journalist Ali Rogin brings together an all-star support and recovery team to inspire anyone confronting a cancer diagnosis, along with their loved ones. Learn how preeminent actresses, musicians, politicians, journalists, and entrepreneurs faced a formidable disease and put it in its place. In their own words, the women of Beat Breast Cancer Like a Boss inform and encourage other women by sharing their experiences and advice. Learn how they told loved ones about their diagnoses, navigated treatment options, and managed the work/life/cancer balance. Rogin, too, faced great uncertainty when she tested positively for the BRCA1 genetic mutation at age twenty. She found answers in the vibrant community of breast cancer survivors and "previvors" who also stared down the odds. With her brave decision to undergo a prophylactic bilateral mastectomy before even graduating college, Rogin joined this diverse sisterhood of women confronting breast cancer in its many forms with dignity, strength, and humor.

A warm reimagining of the beloved folk song with a surprising new twist! Take children on a musical journey through Old MacDonald's farm to learn the sounds of farm animals - and find out what surprises

might be in store for Old MacDonald himself! Jane Cabrera accompanies this sing-along classic with high-spirited illustrations and a refreshing text that will have young readers and parents eagerly turning the pages. Jane Cabrera's picture books have received worldwide attention and two Oppenheim Toy Portfolio awards. Her colorful twists on traditional nursery rhymes are a delight to both teachers and parents hoping to engage toddlers in the act of reading.

This 24-page article is perfect for leaders with limited time and budget. It provides a concise overview of Kouzes and Posner's model and overall thoughts on leadership in Asia. Ideal for orienting readers to the Five Practices® model at the beginning of a workshop or coaching session, the piece contains two Leadership Challenge case studies drawn from Asian nationals, a short description of the Five Practices®, a section on "Learning to Lead", and background information on the Leadership Practices Inventory (LPI).

Designing with Creo Parametric 2.0 provides the high school student, college student, or practicing engineer with a basic introduction to engineering design while learning the 3D modeling Computer-Aided Design software called Creo Parametric from PTC. The topics are presented in tutorial format with exercises at the end of each chapter

# Read Book Sew Eurodrive Movitrac Manual

to reinforce the concepts covered. It is richly illustrated with computer screen shots throughout. Above all, this text is designed to help the reader expand their creative talents and communicate their ideas through the graphics language. Because it is easier to learn new information if you have a reason for learning it, this textbook discusses design intent while you are learning Creo Parametric. At the same time, it shows how knowledge covered in basic engineering courses such as statics, dynamics, strength of materials, and design of mechanical components can be applied to design. You do not need an engineering degree nor be working toward a degree in engineering to use this textbook. Although FEA (Finite Element Analysis) is used in this textbook, its theory is not covered. The first two chapters of this book describe the design process. The meat of this text, learning the basic Creo Parametric software, is found in Chapters 3 through 6. Chapters 7, 8, and 12 deal with dimensioning and tolerancing an engineering part. Chapters 9 and 10 deal with assemblies and assembly drawings. Chapter 11 deals with family tables used when similar parts are to be designed or used. Chapter 13 is an introduction to Creo Simulate and FEA.

STRATEGIC MANAGEMENT: Creating Competitive Advantages, 3/e, by Dess, Lumpkin, and Eisner, responds to the demands of today's rapidly changing and unpredictable global marketplace that students will face when they enter the business world. The concepts-only text provides students with a timely, rigorous, and relevant book written in an engaging manner to spur their interest and excitement. This book provides a solid treatment of traditional topics in strategic management as well as contemporary topics such as entrepreneurship, knowledge management, and e-commerce and internet strategies. Numerous applications from business practice plus sidebars (approximately six per chapter) bring key concepts to life. Instructors can create their own case volumes for use with Strategic Management 3rd Edition from a variety of source- pre-selected case packets, customizing from a recommended set which have been carefully mapped to the chapter concepts, or from the entire Primis database which features cases from Harvard, Darden, INSEAD, Ivey, and other reputable sources.
