Growing up during the chaos of the Nabosian War, Faela Durante and her entire generation never knew what it meant to live in a time of peace. Though the war ended years ago, the devastation has not. Every decision, no matter how seemingly insignificant, has a consequence and some consequences can never be predicted. But some are foretold.

Just when Faela Durante dared to hope that her mission of atonement might succeed, it all shattered with the senseless massacre of the Tereskan healers in Kilrood. None survived the slaughter, not even her son. With her mentor, Ianos Wilkerson, missing and presumed dead, Faela and her new allies must heed Rivka's dying prophecy in order to stand against the coming darkness. But old allies have turned into bitter enemies, and the darkness is spreading. Will Faela rediscover her purpose before it's too late, or will her desire for revenge lead to her end?

After the Tereskan massacre and the death of her son, Faela Durante thought she had nothing left to lose. Then she nearly died at her husband's hands because of her need for vengeance. She survived, but at what cost?Battered and bruised, Faela, along with Kade Hawthorn and Jair Rafferty, must now do the impossible. They must resurrect light magic, destroyed millennia ago in the Shattering, while the consequences of Faela's mistake ripple across the world. Will they learn to work together in time? Or will Faela lose everything she's gained?

It was a simple incident in the life of James Clavell—a talk with his young daughter just home from school—that inspired this chilling tale of what could happen in twenty-five quietly devastating minutes. He writes, "The Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was —any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will...."

Told with P. D. James's trademark suspense, insightful characterization, and riveting storytelling, The Children of Men is a story of a world with no children and no future. The human race has become infertile, and the last generation to be born is now adult. Civilization itself is crumbling as suicide and despair become commonplace. Oxford historian Theodore Faron, apathetic toward a future without a future, spends most of his time reminiscing. Then he is approached by Julian, a bright, attractive woman who wants him to help get her an audience with his cousin, the powerful Warden of England. She and her band of unlikely revolutionaries may just awaken his desire to live . . . and they may also hold the key to survival for the human race.

From the renowned author of Possession, The Children's Book is the absorbing story of the close of what has been called the Edwardian summer: the deceptively languid, blissful period that ended with the cataclysmic destruction of World War I. In this compelling novel, A.S. Byatt summons up a whole era, revealing that beneath its golden surface lay tensions that would explode into war, revolution and unbelievable change — for the generation that came of age before 1914 and, most of all, for their children. The novel centres around Olive Wellwood, a fairy tale writer, and her circle, which includes the brilliant, erratic craftsman Benedict Fludd and his apprentice Phillip Warren, a runaway from the poverty of the Potteries; Prosper Cain, the soldier who directs what will become the Victoria and Albert Museum; Olive's brother-in-law Basil Wellwood, an officer of the Bank of England; and many others from every layer of society. A.S. Byatt traces their lives in intimate detail and moves between generations, following the children who must choose whether to follow the roles expected of them or stand up to their parents' "porcelain socialism." Olive's daughter Dorothy wishes to become a doctor, while her other daughter, Hedda, wants to fight for votes for women. Her son Tom, sent to an upper-class school, wants nothing more than to spend time in the woods, tracking birds and foxes. Her nephew Charles becomes embroiled with German-influenced revolutionaries. Their portraits connect the political issues at the heart of nascent feminism and socialism with grave personal dilemmas, interlacing until The Children's Book becomes a perfect depiction of an entire world. Olive is a fairy tale writer in the era of Peter Pan and Kenneth Grahame's The Wind In the Willows, not long after Alice's Adventures in Wonderland. At a time when children in England suffered deprivation by the millions, the concept of childhood was being refined and elaborated in ways that still influence us today. For each of her children, Olive writes a special, private book, bound in a different colour and placed on a shelf; when these same children are ferried off into the unrelenting destruction of the Great War, the reader is left to wonder who the real children in this novel are. The Children's Book is an astonishing novel. It is an historical feat that brings to life an era that helped shape our own as well as a gripping, personal novel about parents and children, life's most painful struggles and its richest pleasures. No other writer could have imagined it or created it.

A horror story based on the creepypasta Slender Man, a tall, thin man dressed in black, who appears mysteriously in photos watching little children playing on the playground.

A married woman falls blindly in love with a handsome military officer. Happy families are all alike; every unhappy family is unhappy in its own way. States Leo Tolstoy in his great modern novel of an adulterous affair set against the backdrop of Moscow and St. Petersburg high society in the later half of the nineteenth century. A sophisticated woman who is respectably married to a government bureaucrat, Anna begins a passionate, all-consuming involvement with a rich army officer. Refusing to conduct a discreet affair, she scandalizes society by abandoning both her husband and her young son for Count Vronsky—with tragic consequences. Running parallel is the story of the courtship and marriage of Konstantin Levin (the melancholy nobleman who is Tolstoy's stand-in) and Princess Kitty Scherbatsky.

"All she wanted was to use her gifts to serve within the Tereskan Order, but the end of the war was only a lull in the fight. A fight that started several millennia ago when the arrogance of the last of the light mages tore the fabric of reality."--back cover.
