After centuries of wandering through the galaxy in search of other life, the crew of the starship Argonos, the home to generations of humans, is lured by an unidentified transmission to a nearby planet, where they come face to face with a brutal tragedy and a haunting alien mystery. Original.

"No one remembers where they came from or where they're going. For hundreds of years, the starship Argonos, home to generations of humans, has wandered throughout the galaxy searching for other signs of life. Now, a steady, unidentified transmission lures them toward a nearby planet."--Back cover.

Home to generations of humans, the starship Argonos has wandered aimlessly throughout the galaxy for hundreds of years, desperately searching for other signs of life. Now, a steady, unidentified transmission lures them toward a nearby planet, where the grisly remains of a former colony await the crew. Haunted by what they have seen, the crew has no choice but to follow when another signal beckons the Argonos into deep space—and into the dark heart of an alien mystery... “[Russo] is not afraid to take on the question of evil in a divinely ordered universe...This is an ambitious novel of ideas that generates considerable suspense while respecting its sources, its characters, and most important, the reader.”—The New York Times “A tale of high adventure and personal drama in the far future.”—Library Journal “Relentlessly suspenseful...full of mystery...very exciting.”—Science Fiction Chronicle

Cale Alexandros was five years old when the path of his life was irrevocably altered. As the scion of a wealthy and powerful family, he enjoyed a privileged existence—until his family's starship was attacked en route to Morningstar, the lone outpost of civilization on a savage planet known as Conrad's World. In an escape ship, Cale crash-landed in the wilds, and was picked from the wreckage by nomads. For years, Cale is forced to endure life as a slave, sold and shuffled from one group of brutish thugs to another—until a trader recognizes a glimmer of promise in Cale's eyes, and frees him. Cale travels far and wide, but he never forgets what happened long ago, in the desert wastes . . . when, in a strange, ancient temple, he found a book with pages made of a strange metal, and writings he could not identify. When he finally reaches Morningstar, he comes to realize that the book is a key to understanding a language never heard by mankind, an alien dialect. It also holds a secret that some people want to learn, a treasure that some want for themselves, and a revelation that some will do anything to control.

A series of seemingly unrelated murders lead detective Frank Carlucci to a black market run by political officials. "One of the best blends of SF and mystery yet written." — Science Fiction Chronicle.

In a world transformed by the Eschaton, a sentient artificial intelligence, the colony of New Republic, founded by people who wanted no part of the technological revolution, is threatened by an information plague of advanced technology. Reprint.

Police Lt. Frank Carlucci encounters serial murderers, dangerous cyborgs, beautiful ladies, and other perils as he investigates high-tech corruption, crime, and violence in a near-future San Francisco, in a trio of novels--Destroying Angel, Carlucci's Edge, and Carlucci's Heart--brought together in an omnibus edition. Original.

On a ship without a mission ... No one remembers where they came from or where they're going. For hundreds of years, the starship Argonos, home to generations of humans, has wandered throughout the galaxy, searching for other signs of life. Now, a steady, unidentified transmission lures them toward a nearby planet. On a planet without inhabitants ... The colony has vanished. But deep within the planet's steamy jungles, the exploration team find horrible evidence of its fate: a cavernous chamber neatly filled with rows of skeletons, each one hanging on its own hook. On a collision course with the unknown ... Once more, a signal lures the crew of the Argonos. Haunted by what they have seen, they have no choice but to follow - deep into space, where an alien mystery waits.

The death of the Celtic tiger is not an extinction event to trouble naturalists. There was, in fact nothing natural about this tiger, if it ever really existed. The "Irish Economic miracle" was built on good old-fashioned subsidies (from the European Union) and the simple fact that until the 1980s Ireland was by the standards of the developed world so economically backward that the only way was up. And as it began to catch up to European and American averages, the Irish economy could boast some seemingly remarkable statistics. These lured in investors, the Irish deregulated and all but abandoned financial oversight, and a great Irish financial ceilidh began. It would last for a decade. When the global financial crash of 2008 arrived it struck Ireland harder than anywhere - even Iceland looked like a model of rectitude compared to the fiasco that stretched from Cork to Dublin. There was an avalanche of statistics as toxic as the property-based assets that lay beneath many of them. And under all this rubble lay the corpse of the Celtic Tiger. How Ireland managed to achieve such a spectacular implosion is a stunning story of corruption, carelessness and venality, told with passion and fury by one of Ireland's most respected journalists and commentators.
