Encompassing all words current in general English from 1700 to the present day, this dictionary provides more than 600,000 definitions and more than 85,000 quotations from seven thousand authors.

Produced by Oxford's American Dictionaries Program, and drawing on the expertise of scores of American scholars and advisors, The New Oxford American Dictionary sets the standard of excellence for lexicography in this country. Here is the most accurate and richly descriptive picture of American English ever offered in any dictionary. Oxford's American editors drew on our 200-million-word databank of contemporary North American English, plus the unrivaled citation files of the world-renowned Oxford English Dictionary. We started with American evidence--an unparalleled resource unique to Oxford. Our staff logged more than 50 editor-years, checking every entry and every definition. Oxford's ongoing North American Reading Program, begun in the early 1980s, keeps our lexicographers in touch with fresh evidence of our language and usage--in novels and newspapers, in public records and magazines, and on-line, too. To provide unprecedented clarity, the entries are organized around core meanings, reflecting the way people think about words and eliminating the clutter and confusion of a traditional dictionary entry. Each entry plainly shows the major meaning or meanings of the word, plus any related senses, arranged in intuitive constellations of connected meanings. Definitions are supplemented by illustrative, in-context examples of actual

usage. This major new edition of The New Oxford American Dictionary includes a guide to the pronunciations on every page, a new etymology essay by Anatoly Liberman, completely updated and revised maps, and more than a thousand new entries, covering everything new in our language from low-carb to warblog and beyond. The New Oxford American Dictionary is designed to serve the user clearly, simply, and quickly, with the precise guidance you expect from Oxford University Press. With in-depth and up-to-date coverage that all users need and expect--for reading and study, for technical terms, for language guidance--it continues the tradition of scholarship and lexicographic excellence that are the hallmarks of every Oxford dictionary. Web Site A companion web site is now available at www.oup.com/us/noad.

Most people think of the Oxford English Dictionary (OED) as a distinctly British product. Begun in England 150 years ago, it took more than 60 years to complete and, when it was finally finished in 1928, the British prime minister heralded it as a 'national treasure'. It maintained this image throughout the twentieth century, and in 2006 the English public voted it an 'Icon of England', alongside Marmite, Buckingham Palace and the bowler hat. However, this book shows that the dictionary is not as 'British' as we all thought. The linguist and lexicographer, Sarah Ogilvie, combines her insider knowledge and experience with impeccable research to show that the OED is in fact an international product in both its content and its making. She examines the policies and practices of the various editors, applies qualitative and quantitative analysis, and finds new OED archival materials in the form of letters, reports and proofs. She demonstrates that the OED, in its use of readers from all over the world and its coverage of World English, is in fact a global text.

Three senior editors at the Oxford English Dictionary examine Tolkien's career as a lexicographer who spent two years on the staff of the OED, analyze its influence on his creative use of language in his fictional works, and probe the origins and meaning of such Tolkienesque words as "hobbit," "Ent," and "mithril."
