Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.

White Tears is a ghost story, a terrifying murder mystery, a timely meditation on race, and a love letter to all the forgotten geniuses of American music and Delta Mississippi Blues. "An incisive meditation on race, privilege and music. Spanning decades, this novel brings alive the history of old-time blues and America ' s racial conscience."—Rabeea Saleem, Chicago Review of Books Two twenty-something New Yorkers. Seth is awkward and shy. Carter is the glamorous heir to one of America's great fortunes. They have one thing in common: an obsession with music. Seth is desperate to reach for the future. Carter is slipping back into the past. When Seth accidentally records an unknown singer in a park, Carter sends it out over the Internet, claiming it's a long lost 1920s blues recording by a musician called Charlie Shaw. When an old collector contacts them to say that their fake record and their fake bluesman are actually real, the two young white men, accompanied by Carter's troubled sister Leonie, spiral down into the heart of the nation's darkness, encountering a suppressed history of greed, envy, revenge, and exploitation.

This book challenges this conventional wisdom that land claims and co-management -- two of the most visible and celebrated elements of this restructuring the relationship between Aboriginal peoples and the Canadian state -- will help reverse centuries of inequity. Based on three years of ethnographic research in the Yukon, the author examines the complex relationship between the people of Kluane First Nation, the land and animals, and the state. This book moves beyond conventional models of colonialism, in which the state is treated as a monolithic entity, and instead explores how "state power" is reproduced through everyday bureaucratic practices -- including struggles over the production and use of knowledge.

An Iceberg as Big as Manhattan is a gripping report on the new frontlines of science and the environment from the BBC's Science Editor, David Shukman. His skill is to get the big picture and to present it amid the everyday details of life and people. And these are the major stories of our day, whether Shukman is journeying up the fabled North West Passage in the Arctic, chasing after loggers in the Amazon, battling through plastic waste in the Pacific, or heading to the bottom of the sea to chart the effects of the BP oil spill in the Gulf of Mexico. This new paperback edition of Reporting Live from the End of the Word (9781846688874) has been revised and updated to take stock of recent events. It provides a fascinating eye-witness account of both the environment and of life behind the cameras at the BBC.
