#1 NEW YORK TIMES BEST SELLER • In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical—and accessible—plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

The extraordinary and wonderful adventures which befell Phileas Fogg and his servant Passepartout when they set out to win a bet by going round the world in eighty days.

Aristotle's zoological writings with their wealth of detailed investigations on diverse species of animals have fascinated medieval and Renaissance culture. This volume explores how these texts have been read in various traditions (Arabic, Hebrew, Latin), and how they have been incorporated in different genres (in philosophical and scientific treatises, in florilegia and encyclopedias, in theological symbolism, in moral allegories, and in manuscript illustrations). This multidisciplinary and multilinguistic approach highlights substantial aspects of Aristotle's animals.

Victor Papanek and James Hennessey set out to change the world in the mid 1970s, empowering the people to create their own inexpensive furnishings. Their books, Nomadic Furniture 1 and Nomadic Furniture 2 are reprinted here in their entirety. In their vision of home design, everything is lightweight, folds, inflates, knocks down, stacks, or is disposable. They offer simple instructions for making beds, chairs, sofas, stools, and tables, using inexpensive and recycled materials. Their ideas open up channels for creativity, as well as for saving of money and lightening a household's footprint. This practical, lighthearted approach to living is certainly worth a revisit, in a world where environmental consciousness is quickly evolving.

"The author's experience with grief after the sudden death of her husband, combined with social science on resilience"--

Since the very beginnings of the digital humanities, Papyrology has been in the vanguard of the application of information technologies to its own scientific purposes, for both theoretical and practical reasons (the strong awareness towards the problems of human memory and the material ways of preserving it; the need to work with a multifarious and overwhelming amount of different data). After more than thirty years of development, we have now at our disposal the most advanced tools to make papyrological studies more and more effective, and even to create a new conception of "papyrology" and a new model of "edition" of the ancient documents. At this turning point, it is important to build an epistemological framework including all the different expressions of Digital Papyrology, to trace a historical sketch setting the background of the contemporary tools, and to provide a clear overview of the current theoretical and technological trends, so that all the possibilities currently available can be exploited following uniform pathways. The volume represents an innovative attempt to deal with such topics, usually relegated into very quick and general treatments within journal articles or papyrological handbooks.

The perfect graduation gift: the iconic #1 best seller, expanded and updated exclusively for graduates entering the workforce. This extraordinary edition of Lean In, by Sheryl Sandberg, chief operating officer of Facebook and coauthor of Option B, with Adam Grant, includes a letter to graduates from Sandberg and six additional chapters from experts offering advice on finding and getting the most out of a first job; résumé writing; best interviewing practices; negotiating your salary; listening to your inner voice; owning who you are; and leaning in for millennial men. In 2013, Sheryl Sandberg ' s Lean In became a massive cultural phenomenon and its title became an instant catchphrase for empowering women. The book soared to the top of best-seller lists both nationally and internationally, igniting global conversations about women and ambition. This enhanced edition provides the entire text of the original book updated with more recent statistics and features a passionate letter from Sandberg encouraging graduates to find and commit to work they love. A combination of inspiration and practical advice, this new edition will speak directly to graduates and, like the original, change lives. New Material for the Graduates Edition: · A Letter to Graduates from Sheryl Sandberg · Find Your First Job, by Mindy Levy (Levy has more than twenty years of experience in all phases of organizational management and holds degrees from Wharton and Penn) · Negotiate Your Salary, by Kim Keating (Keating is the founder and managing director of Keating Advisors) · Man Up: Millennial Men and Equality, by Kunal Modi (Modi is a consultant at McKinsey & Company and a recent graduate of the Harvard Kennedy School and Harvard Business School) · Let ' s Lean In Together, by Rachel Thomas (Thomas is the president of The Sheryl Sandberg & Dave Goldberg Family Foundation)- Own Who You Are, by Melody Hobson (Hobson is the president of Ariel Investments) · Listen to Your Inner Voice, by Rachel Simmons (Simmons is cofounder of the Girls Leadership Institute) · 12 Lean In stories, short essays by readers around the world who have been inspired by Sandberg

This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.
