New York City is home to some of the most recognizable places in the world. As familiar as the sight of New Year's Eve in Times Square or a protest in front of City Hall may be to us, do we understand who controls what happens there? Kristine Miller delves into six of New York's most important public spaces to trace how design influences their complicated lives. Miller chronicles controversies in the histories of New York locations including Times Square, Trump Tower, the IBM Atrium, and Sony Plaza. The story of each location reveals that public space is not a concrete or fixed reality, but rather a constantly changing situation open to the forces of law, corporations, bureaucracy, and government. The qualities of public spaces we consider essential, including accessibility, public ownership, and ties to democratic life, are, at best, temporary conditions and often completely absent. Design is, in Miller's view, complicit in regulation of public spaces in New York City to exclude undesirables, restrict activities, and privilege commercial interests, and in this work she shows how design can reactivate public space and public

life. Kristine F. Miller is associate professor of landscape architecture at the University of Minnesota.

"The family elements in the story - the real struggles with marriage, raising a family, making a living, and just trying to enjoy life - have broadened the book's appeal to a wider audience, primarily women who are not into technology." DARK END OF SPECTRUM will make you think twice before turning on your cell phone or PDA! DARK END OF THE SPECTRUM is a frighteningly plausible and headline ripping tale of the real threats that loom in cyberspace and beyond with a Michael Crichton realism. Based on the author's years of research into the hacker culture. DARK END OF THE SPECTRUM is a thriller that will connect with everyone with a cell phone, PDA or wireless device. When a group of digital terrorists known as ICER take over the US power grid and the cell phone network, they give the government an ultimatum - bomb the borders of Afghanistan and Pakistan with nuclear weapons to put an end to Al-Quada or they will start downing commercial airliners. When the government refuses, ICER destroys most of the downed aircraft in airports all over the country. When ICER sends a pulse that will kill millions on the East Coast, only security expert Dan Riker can stop them, but ICER has kidnapped Dan's family. Will Dan save his family or will millions die?

In this powerful, unforgettable memoir, acclaimed novelist Darin Strauss examines the far-reaching consequences of the tragic moment that has shadowed his whole life. In his last month of high school, he was behind the wheel of his dad's Oldsmobile, driving with friends, heading off to play mini-golf. Then: a classmate swerved in front of his car. The collision resulted in her death. With piercing insight and stark prose, Darin Strauss leads us on a deeply personal, immediate, and emotional journey—graduating high school, going away to college, starting his writing career, falling in love with his future wife, becoming a father. Along the way, he takes a hard look at loss and guilt, maturity and accountability, hope and, at last, acceptance. The result is a staggering, uplifting tour de force. Look for special features inside, including an interview with Colum McCann.

Chronicles the personal and professional life of the Hispanic American actress and singer, from her childhood in the Bronx to her success in the entertainment industry.

John Nathan arrived in Tokyo in 1961 fresh out of Harvard College, bringing with him no practical experience, no more than two connections, no prospects, and little else to recommend him but stoic, unflappable pluck. Japan at that time was still in the shadow of the Occupation, and only a handful of

foreigners were studying the country seriously. Two years later, Nathan became the first American to pass the entrance exams to the best school in Japan, the University of Tokyo. He went on to translate two of Japan's greatest contemporary writers, Yukio Mishima and Nobel laureate Kenzaburō Ōe, and direct several series of films in and about Japan in collaboration with world-famous directors and businesses; earn an advanced degree at Harvard and a professorship at Princeton; and become a Hollywood screenwriter. Nathan was given unprecedented access to the inner sanctum of Sony for his book *Sony: The Private Life*, and he explored the damaged psyche of postbubble Japan in his acclaimed *Japan Unbound*. During his decades of passionate engagement with Japan, Nathan became close friends with many of the most gifted people in the land -- politicians and business leaders as well as painters, novelists, directors, rock stars, and movie stars -- and was privileged to travel, in their very special company, inside domains of Japanese life not normally open to foreigners then or now. In his unique chronicle of that journey, *Living Carelessly in Tokyo and Elsewhere*, he details the adventures sublime, profane, and uproarious, many of a distinctly Japanese nature, that characterized his career, which was singular in its success as much as in its chaos. Along the way, he brings the most exciting era in recent Japanese history vividly into focus with wry

humor, penetrating insight, and pathos. John Nathan is not the only foreigner to have developed a rich, full, deeply nuanced understanding of Japan. But his experiences are certainly extraordinary and in fact irreproducible, and his memoir is the most personally satisfying story yet told of Japan (and elsewhere). From Nathan's lifetime of wisdom, compassion, and brazen resolve, we learn the value of traveling within our own mental and emotional borders as well as without the many places we call home.

Winner of the National Outdoor Book Award for Natural History "After reading *Super Fly*, you will never take a fly for granted again. Thank you, Jonathan Balcombe, for reminding us of the infinite marvels of everyday creatures." —Sy Montgomery, Author of *How to Be a Good Creature* From an expert in animal consciousness, a book that will turn the fly on the wall into the elephant in the room. For most of us, the only thing we know about flies is that they're annoying, and our usual reaction is to try to kill them. In *Super Fly*, the myth-busting biologist Jonathan Balcombe shows the order Diptera in all of its diversity, illustrating the essential role that flies play in every ecosystem in the world as pollinators, waste-disposers, predators, and food source; and how flies continue to reshape our understanding of evolution. Along the way, he reintroduces us to familiar foes like the fruit fly and

mosquito, and gives us the chance to meet their lesser-known cousins like the Petroleum Fly (the only animal in the world that breeds in crude oil) and the Chocolate Midge (the sole pollinator of the Cacao tree). No matter your outlook on our tiny buzzing neighbors, Super Fly will change the way you look at flies forever. Jonathan Balcombe is the author of four books on animal sentience, including the New York Times bestselling What A Fish Knows, which was nominated for the PEN/E.O. Wilson Award for Science Writing. He has worked for years as a researcher and educator with the Humane society to show us the consciousness of other creatures, and here he takes us to the farthest reaches of the animal kingdom.

A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times-bestselling author Nancy Jo Sales At forty-nine, famed Vanity Fair writer Nancy Jo Sales was nursing a broken heart and wondering, "How did I wind up alone?" On the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her

directorial debut with the HBO documentary *Swiped: Hooking Up in the Digital Age*. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. *Nothing Personal* is Sales's memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, *Nothing Personal* investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users' deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley's tech giants—especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing.

One woman's secret journal completely changes her marriage in this hilarious and biting memoir—the inspiration for the Netflix Original Series *SEX/LIFE*. School psychologists aren't supposed to write books about sex. Doing so would be considered "unethical" and "a fireable offense." Lucky for you, ethics was never my strong suit.

Sex/Life: 44 Chapters About 4 Men is a laugh-out-loud funny and brutally honest look at female sexuality, as told through the razor-sharp lens of domesticated bad girl BB Easton. No one and nothing is off limits as BB revisits the ex-boyfriends—a sadistic tattoo artist, a punk rock parolee, and a heavy metal bass player—that led her to finally find true love with a straight-laced, drop-dead-gorgeous . . . accountant. After settling down and starting a family with her perfectly vanilla "husbot," Ken, BB finds herself longing for the reckless passion she had in her youth. She begins to write about these escapades in a secret journal, just for fun, but when Ken starts to act out the words on the pages, BB realizes that she might have stumbled upon the holy grail of behavior modification techniques. The psychological dance that ensues is nothing short of hilarious as BB wields her journal like a blowtorch, trying to light a fire under her cold, distant partner. Sometimes it works, sometimes it doesn't, but in the end, BB learns that the man she was trying so hard to change was perfect for her all along.
