For people who both love and hate cats comes the tale of Alec Charlesworth, a librarian who finds himself suddenly alone: he's lost his job, his beloved wife has just died. Overcome by grief, he searches for clues about her disappearance in a file of

It takes a while for Alec to realize he ' s not gone mad from grief, that the cat is actually speaking to Wiggy . . . and that much of what we fear about cats is true. They do think they ' re smarter than humans, for one thing. And, well, it seems
