In 1968, British Leyland brought together many of Britain's motor manufacturers, with the intention of creating a robust unified group that could equal the strength of the big European conglomerates. But this was not to be.

Read Book Sprint

There have been many books about the politics and the business activities of British Leyland, but British Leyland - The Cars, 1968-1986 looks exclusively at the cars that came from the company, both the models it inherited and those it created. The

Read Book

Sprint

eighteen years of the corporation's existence saw a confusing multitude of different car types, but this book resolves these confusions, clarifying who built what, and when. The book takes 1986 as its cut-off point because this

Read Book Sprint

was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group. The book includes:

- Production histories and technical specifications of
