Stranger Things' Producer Shawn Levy Reveals Why He Needed to Use Michael Jackson's "Thriller" in a Trailer for the Show

In an extraordinary blend of narrative history, personal recollection, & oral testimony, the author presents a sweeping history of Asian Americans. He writes of the Chinese who laid tracks for the transcontinental railroad, of plantation laborers in the canefields of Hawaii, of "picture brides" marrying strangers in the hope of becoming part of the American dream. He tells stories of Japanese Americans behind the barbed wire of U.S. internment camps during World War II, Hmong refugees tragically unable to adjust to Wisconsin's alien climate & culture, & Asian American students stigmatized by the stereotype of the "model minority." This is a powerful & moving work that will resonate for all Americans, who together make up a nation of immigrants from other shores.

Including individuals from the first wave of immigrants in the 1840s, the author tells the story of some of the Asian-Americans who came to this country and the obstacles they faced here

NEW YORK TIMES BESTSELLER Soon to be a Hulu original series " If three characters were good in Big Little Lies, nine are even better in Nine Perfect Strangers. " —Lisa Scottoline, The New York Times Book Review From the #1 New York Times bestselling author of Big Little Lies Could ten days at a health resort really change you forever? In Liane Moriarty ' s latest page-turner, nine perfect strangers are about to find out... Nine people gather at a remote health resort. Some are here to lose weight, some are here to get a reboot on life, some are here for reasons they can ' t even admit to themselves. Amidst all of the luxury and pampering, the mindfulness and meditation, they know these ten days might involve some real work. But none of them could imagine just how challenging the next ten days are going to be. Frances Welty, the formerly best-selling romantic novelist, arrives at Tranquillum House nursing a bad back, a broken heart, and an exquisitely painful paper cut. She ' s immediately intrigued by her fellow guests. Most of them don ' t look to be in need of a health resort at all. But the person that intrigues her most is the strange and charismatic owner/director of Tranquillum House. Could this person really have the answers Frances didn ' t even know she was seeking? Should Frances put aside her doubts and immerse herself in everything Tranquillum House has to offer – or should she run while she still can? It ' s not long before every guest at Tranquillum House is asking exactly the same question. Combining all of the hallmarks that have made her writing a go-to for anyone looking for wickedly smart, page-turning fiction that will make you laugh and gasp, Liane Moriarty ' s Nine Perfect Strangers once again shows why she is a master of her craft.

Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn ' t true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don ' t know. And because we don ' t know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times.

Could a lifetime of memories...be a lifetime of lies? All her life Ryan Gracey watched her perfect older sister from afar. Knowing she could never top Wendy ' s achievements, she didn ' t even try. Instead Ryan forged her own path while her family barely seemed to notice. Now Wendy shares two little girls with her perfect husband while Ryan mourns the man she lost after a nearly fatal mistake in judgment. The sisters ' choices have taken them in different directions, which is why Ryan is stunned when Wendy calls, begging for her help. There ' s been a murder—and Wendy believes she ' ll be wrongfully accused. While Wendy lies low, Ryan moves back to their hometown to care for the nieces she hardly knows. The sleuthing skills she ' s refined as a true-crime podcaster quickly rise to the surface as she digs for answers with the help of an unexpected ally. Yet the trail of clues Wendy ' s left behind lead to nothing but questions. Blood may be thicker than water, but what does Ryan owe a sister who, with every revelation, becomes more and more a stranger? Is Wendy, who always seemed so perfect, just a perfect liar—or worse?

"From the best-selling author of Maine, a gorgeous, compulsively-readable novel that tells the story of the complex relationship between two women, Elisabeth, a privileged new mother and writer attempting to find her footing after childbirth, and Sam, the idealistic, working-class college student she hires to nanny her young son"--

The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump "A generous but disconcerting look at the Tea Party. . . . This is a smart, respectful and compelling book." —Jason DeParle, The New York Times Book Review When Donald Trump won the 2016 presidential election, a bewildered nation turned to Strangers in Their Own Land to understand what Trump voters were thinking when they cast their ballots. Arlie Hochschild, one of the most influential sociologists of her generation, had spent the preceding five years immersed in the community around Lake Charles, Louisiana, a Tea Party stronghold. As Jedediah Purdy put it in the New Republic, "Hochschild is fascinated by how people make sense of their lives. . . . [Her] attentive, detailed portraits . . . reveal a gulf between Hochschild's 'strangers in their own land' and a new elite." Already a favorite common read book in communities and on campuses across the country and called "humble and important" by David Brooks and "masterly" by Atul Gawande, Hochschild's book has been lauded by Noam Chomsky, New Orleans mayor Mitch Landrieu, and countless others. The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published, and also includes a readers' group guide at the back of the book.

My father proposed to my mother at gunpoint when she was nineteen, and knowing that she was already pregnant with a dead man ' s child, she accepted." Thus begins this riveting story of a woman's quest to understand her recently deceased mother, a glamorous, cruel narcissist who led her only child an inheritance of debts, threats, and mysteries.

Rockfield High University is one of Seoul ' s most prestigious educational institutes, where people of different ethnicities enroll to make their dreams come true. But since June 1, 2015, women in their twenties have started going missing. Seoul ' s streets are no longer safe, and walking late at night is prohibited. Aria Heart is nineteen, half-American, and carefree. She ' s cute, friendly, and mostly careless of her surroundings and belongings. She misplaces her diary somewhere, and even though Aria isn ' t worried, her best friend plans a break-in at the university just to get it back. They never could have forseen the effects of their actions. Detective Oh Yejun is a criminal-catching prodigy. He begins his time at Rockfield High University by studying the cases of the missing girls but soon progresses to another case that leaves him completely baffled. How are the missing women related? What does Aria Heart have to do with it, and can Yejun make sense of the seeming chaos before it ' s too late?
